

## Inspect State's Drought

Two Teams Making Trips In Missouri; One Makes Stop At Warrensburg

KANSAS CITY (AP)—Two teams of officials, investigating drought conditions, began their inspection trip through Missouri today.

One group, headed by Assistant U. S. Secretary of Agriculture Ross Ritzley, drove eastward on U. S. 50 this morning, making several stops in the Warrensburg vicinity. The other team, headed by Harvey Dahl, department of agriculture, took a route along U. S. 71 toward Butler, Nevada and Joplin. They were to meet at Springfield tonight.

One farmer, Ray Wilkerson, of near Warrensburg, told the inspectors his only yield this year was in oats. Wilkerson said about half of his more than 100 acres had been planted in corn and some of it was in hillside pasture. Only 13 acres was planted in oats.

In Warrensburg, Gus Bass, president of the Citizens' Bank told Ritzley "Our farmers are going to need help right away from some place."

"The economy around here is hurt pretty badly," Bass said. "This is the second bad year in a row and the third recent year altogether."

In the Ritzley group were L. C. Carpenter, Missouri commissioner of agriculture; Murray C. Colbert, chief agricultural stabilization and conservation commissioner in Missouri and Perry Compton, chairman of the Republican state committee.

With Dahl were Col. A. C. Brittain, state agricultural statistician; Max Schwabe, state director of the farmers' home administration; David Pansing, administrative assistant to Missouri, Rep. Jeffrey Hillelson; Kermit Bailey, a state agricultural conservation and stabilization commissioner J. W. Burch, state extension director and W. D. Cruze, assistant to the chairman of the state GOP committee.

Speaking to Kansas and Missouri farm representatives here last night, Ritzley said the government is ready to move with emergency hay and beef purchase programs. He added the government will be able to act early next week on an emergency feed program.

"In order to qualify for disaster relief programs on hay and feed, areas of each state will have to be designated as disaster areas by the governor," Ritzley explained.

"As far as the beef purchase program is concerned, the department of agriculture will go into the market and begin buying the minute such action appears necessary to prevent a serious price break."

"Our advisers have indicated to us that it may not yet be the time when the beef buying program should be put into effect. The government would simply announce it is ready to begin buying beef."

"It then would be a matter of getting the contracts in operation with the packers to obtain the beef to be used by the military services and other government sources."

Ritzley said the hay program would be similar to the one developed last year. In that project, federal funds were used to help get hay to disaster areas. The hay was sold through regular channels at reduced prices.

With Ritzley was Harvey Dahl, a department of agriculture consultant on drought problems. Accompanied by members of the Missouri delegation, they planned to fly to Springfield and Joplin today to inspect drought areas in the southern and western section of the state.

Murray Colbert, chairman of the Missouri Agricultural Stabilization committee, told Ritzley that Missourians think the whole state should be declared a drought disaster area.

"We feel the government should reinstate its beef purchasing program immediately in order to prevent a price break," Colbert said.

"Our hog farmers particularly are in need of help. They need feed at a price that will permit them to feed hogs without heavy financial loss. We feel that government-stored corn should be made available at a price of \$1.55 a bushel or less to help this situation."

## Heat Watchers, Note

They have air raid warnings, bird watchers, plane spotters, etc., but right now we're interested in some heat watchers. Somebody's got to watch that stuff cause it's beginning to boil up again after we sweated for a week in getting it back down to normal.

Partly cloudy tonight and Thursday; high Thursday in the upper 90s; low tonight in the 70s.

The temperature at 7 a. m. was 74; 96 at 1 p. m.; and 97 at 2 p. m.

One year ago today here high 101, low 75; two years ago 103, 74; 22 inch rain; three years ago 92, 71.

Stage at Lake of the Ozarks: 55.1, fall 0.1.

## Ike Calls Red Plane Attack Part of Plan

Commies, He Says, Trying to Split Western Allies and U. S. Will Defend Its Rights; Rescue Planes Were On 'Legitimate Business'

WASHINGTON (AP)—President Eisenhower said today the Chinese Communist attacks on American and British planes are part of the Red plan to split the Western Allies. He declared the United States means to defend its rights.

The President told a news conference the American rescue planes which were attacked by the Chinese Communists were engaged in legitimate business.

The United States means to defend its rights whenever it is engaged on legitimate business, he said.

The American aircraft shot down two Red planes after being attacked over the South China Sea. The President also dealt with these other matters:

**LEGISLATIVE PROGRAM**—Eisenhower said he would be more than bitterly disappointed if Congress should adjourn without approving such administration measures as those dealing with foreign aid, farm policy, tax revision, housing and social security.

And he added, in reply to a question, that he feels an increase in the 275-billion-dollar national debt ceiling is inescapable.

**ANGLO-EGYPTIAN**—He said he is highly pleased with the agreement reached by Great Britain and Egypt on terms for settling their argument over the Suez Canal Zone.

**POLITICS**—Eisenhower said he still supports Sen. Cooper (R-Ky) for re-election despite Cooper's break with the administration on two votes in connection with the atomic energy bill.

The President said Cooper came to him and was honest about the whole thing in explaining his position. He said he respects the senator's opposition on a legal question involved in the issue.

**FOOD PRICES**—The President expressed the hope that food prices will stabilize if Congress passes the administration bill calling for a flexible farm price-support program instead of the rigid support plan now in effect.

**TARIFFS**—The United States, the President said, must continue to work toward a freer flow of world trade, even though he found it necessary to hike the tariff on imported watches up to 50 per cent.

Eisenhower ordered the increase yesterday. Switzerland, which supplies this country with most of its imported watch movements, said the tariff hike dealt a serious blow not only to existing good relations between Switzerland and the United States, but also to the very principle of freedom of trade.

**GERMAN SOVEREIGNTY**—The President said he is not ready to announce just what steps he might take toward granting sovereignty to West Germany.

**KNOWLAND**—The President said Sen. Knowland of California, the Senate Republican leader, had given a pretty good account of himself during the prolonged Senate debate on the administration atomic energy bill.

That remark was prompted by a reporter's statement that Knowland had been subjected to a good deal of criticism in his handling of the bill.

**ATOMIC POWER**—The President said he was not ready to express his views on the matter of the government's role in constructing atomic reactors to produce electricity. He said atomic power still costs much more than conventional power and is a matter which needs much more study.

He said he did not know that the issue was raised in a head on fashion by amendments written into the atomic energy bill.

**Ike Signs SAFB Bill Authorizing New Construction**

WASHINGTON, D. C. (AP)—President Eisenhower Tuesday signed legislation authorizing military construction projects in this country and abroad at an estimated total cost of \$837,364,000.

The bill carries no money for the work. Appropriations will have to be provided in separate legislation.

The authorization bill includes \$398,000,000 for the Air Force; \$238,060,000 for the Army; \$201,893,000 for the Navy; and \$462,000 for the Alaska Communications System.

Following are the authorizations for Missouri and Kansas:

**Missouri—Sedalia Air Force Base \$2,743,000, Grandview Air Force Base, \$1,583,000.**

**Kansas—F. Riley Army \$3,871,000; Atchison storage facility (Army) \$1,155,000; Forbes Air Force Base, Topeka, \$10,429,000; Smoky Hill AFB, Salina \$7,612,000; Wichita AFB, \$2,479,000; Topeka AF Depot, \$218,000.**

man said the Wisconsin senator's activities had gone far beyond the "narrow" issues he said were investigated by a special subcommittee headed by Sen. Mundt (R-SD).

Lehman set out these specific accusations against McCarthy: "He has made a mockery of the congressional investigating process."

"He has ridden roughshod over the rights of scores of American citizens, using his position in the Senate to smear, denounce and ruin individuals."

"He has slandered some of the noblest public servants this country has ever had, imputing to them the high crime of treason . . ."

The Great men of American history, like President Roosevelt, President Truman, and Gen. George C. Marshall.

"He has attacked and smeared, without justification, such out-

standing public servants as Ambassador Philip Jessup and Ambassador Charles Bohlen.

McCarthy, who has clashed with Lehman in the past, was not immediately available for comment.

Flanders said earlier that senators "can't claim neutrality" on his censure resolution.

Flanders told newsmen he is determined to press his resolution to its promised vote on Friday. He said he will contend that any senator absent from the roll call without good reason will have "voted to dodge" the issue.

He said senators in effect "have to vote 'yes,' 'no' or 'dodge-it'" on the resolution.

Sen. Knowland of California, the Senate Republican leader, has promised that Flanders can have a vote on the issue Friday, possibly in the form of a motion by Knowland to kill the resolution.

"He has attacked and smeared, without justification, such out-

standing public servants as Ambassador Philip Jessup and Ambassador Charles Bohlen.

McCarthy, who has clashed with Lehman in the past, was not immediately available for comment.

## House Passes Tax Bill

Compromise Version Of Ike's Proposal Revises, Reduces Tax by Over Billion

WASHINGTON (AP)—The House today passed a compromise version of President Eisenhower's giant tax revision program, reducing the nation's 1954 tax bill an estimated \$1,363,000,000.

Final action came after the House defeated 227-169 a Democratic move to strip from the program a disputed tax cut on dividends.

The 1,000-page bill now goes to the Senate, where a similar fight over the dividend tax cut is expected to precede final congressional action on the biggest tax overhaul in 75 years.

Democrats moved to strike from the bill a disputed provision to permit taxpayers to subtract 4 per cent of their dividend income from the tax payment they otherwise would make.

Their move would have sent the bill back to a House-Senate conference committee, which worked out the compromise version. The Senate still has to act on the compromise.

Democrats have attacked the dividend tax cut for months, charging it is an unjustified special benefit for wealthy persons. The Eisenhower administration and congressional Republicans have defended the move as a step to encourage business investment, bolster the economy and eliminate what they term "double taxation."

The big bill would not change major tax rates but would provide scores of new or bigger tax deductions for depreciation of new plants and equipment, retirement income, medical expenses, child care expenses, dependents who make more than \$600, soil conservation outlays and other items.

On southerly, an approximate 600-foot long relocation will be made adjacent to the George Teter and Floyd Schluesing places. Another relocation, about 1,600 feet, will be made beginning adjacent to the Schluesing places, and extending southwestwardly adjacent to the C. E. Bybee and Schluesing properties. It rejoins the present road adjacent to the Bybee and Wilbur Eickhoff properties.

Still another relocation, about 1,800 feet, begins adjacent to the Bybee and Eickhoff places, and extends southwestwardly adjacent to the John Bohling place. It rejoins the present road adjacent to the Bohling and R. D. Montgomery properties.

It will then extend westerly along the present road to a connection with Route C, adjacent to the E. A. Smith and Mrs. Dickinson places.

Work will be carried out under supervision of the commission's District 4 office in Kansas City, of which M. M. Brush is district engineer. William J. Groves, district construction engineer, will direct the work, through a resident engineer to be assigned.

This project is among others costing a total of about \$2,620,430 on which the commission now has awarded contracts under its June 24 bid call. The work extends over about 208.6 miles of supplementary roads, on which the cost totals about \$1,931,618, and 2.2 miles of major system routes, on which the cost is \$688,812. It is located in 38 counties.

One major system project, an urban improvement in Kansas City, is for street and railroad grade separations at Broadway, May and Wyandotte streets as part of the Sixth Street Trafficway. The other, also an urban project is in St. Louis, for installing a lighting system on 2.2 miles of the Ozark Expressway between Gravois and Dolman Streets and Third Street and Washington Avenue.

Supplementary projects are in these counties: Gentry, Worth, Nowaday, Chariton, Linn, Macon, Putnam, Clark, Knox, Lewis, Marion, Shelby, Benton, Lafayette, Pettis, Callaway, Cole, Cooper, Maries, Miller, Morgan, Montgomery, Vernon, Hamilton, Phelps, Lusk, Webster, Dent, Howell, Oregon, Texas, Bollinger, Butler, New Madrid and Ripley.

The agreement ended the two nations' long and often bloody dispute over control of the big land and air bases which Britain built in the strategic zone at a cost of \$1,200,000,000.

It provides that all British troops will be withdrawn from the Suez within 20 months after the final treaty is signed, but that Britain can use the bases again if any of the Arab states or Turkey is attacked.

Britain also will maintain the present military installations along the 104-mile-long canal for seven years with civilian technicians.

Col. Anwar Sadat, a member of Egypt's ruling revolutionary council, said last night Britain and the United States had agreed in principle to supply Egypt with military aid now that the Suez issue is settled. Sadat said the Egyptian army would be doubled within five years.

Nasser broadcast to the nation that "this is a glorious day in the history of Egypt." Radio Cairo, which normally closes down at midnight, stayed on the air all night to repeat the broadcast. Impromptu celebrations were reported throughout the country.

Egyptians were jubilant because the agreement, coming after years of bitterness and violence, means their country will be free of British troops for the first time since 1882.

## Rhee Proposes US Back Asian Army Counterattack on Reds

Contract Let For Route W Improvements

Howard Construction Co. to Work 7.9 Miles at Smithton

A contract for constructing about 7.9 miles of state supplementary Route W in Pettis County now has been awarded by the State Highway Commission to the Howard Construction Co., Sedalia, under bids received June 24. The project calls for grading, construction of a 237-foot bridge, and surfacing with crushed stone or gravel. It will cost about \$159,530.

Work will begin at U.S. Route 50 at Smithton, adjacent to the Virgil Karrick and Archie Harness places. It will extend southerly, generally following the present road, through Smithton, to a point adjacent to the John Bruhn property. An approximately 1,400-foot relocation will be made, extending southeasterly through the Bruhn place to rejoin the present road adjacent to the Bruhn property. A double 12 by 8-foot concrete box culvert will be installed at Kahr's Branch, adjacent to the properties of F. D. Momborg and Raymond J. Kahrs.

It will continue along the present road southerly, easterly, and southerly, with a 237-foot truss and 1-beam bridge to be built at Flat Creek, adjacent to the George Cook place.

On southerly, an approximate 600-foot long relocation will be made adjacent to the George Teter and Floyd Schluesing places. Another relocation, about 1,600 feet, will be made beginning adjacent to the Schluesing places, and extending southwestwardly adjacent to the C. E. Bybee and Schluesing properties. **HUNGRY GRASSHOPPERS** did a rather thorough demolition job to this gown while it was hanging on the clothes line of Mrs. John Ricketts (above), 1806 South Carr, Tuesday. Mrs. Ricketts, who also had another gown and two bed jackets similarly treated, said the grasshoppers invaded two days ago, but that they hadn't been desperate enough earlier to eat her clothes. The only good thing she can find about the "hoppers is that they keep the cats well fed, but adds "they have had the stomachache all day."

1954 Total Is \$50,815,331--

## County Assessment Figures Show Gain of Over Million

Pettis County's assessed valuation for 1954 shows an increase of nearly \$1,100,000 over 1953, with most of that increase coming from the value of real estate, especially town property. Thus, the figures indicate the building boom which has been in evidence over the county.

The total assessed valuation of the county, yet subject to the board of appeals which meets on Aug. 9 and 10, is \$50,815,331, compared with \$49,728,852 a year ago, according to James Green, county clerk, who released the figures.

Actually the increase in assessments of real estate are more than the year's gain over 1953, but the state assessed corporation lists showed a decrease which made up the difference.

Real estate assessments of the county this year include \$15,075,130 for farm lands and \$15,293,345 for town lots. This is a total of \$30,368,475 to compare with a year ago of \$28,749,010.

The state assessed corporations this year total \$7,561,662, a drop of almost a million from a year ago. Merchants and manufacturers are \$1,377,080 and the total of all tangible personal property is \$11,508,114.

Included in the tangible personal property are these figures: Horses, mares, geldings \$30,300; asses and jennets \$340; mules \$4,250; meat cattle \$1,910,940; hogs \$371,040; sheep \$36,610; goats \$90; poultry \$65,770; bees \$1,540; farm and other machinery \$1,305,110; household property \$1,440,790; motor vehicles, trucks, airplanes, motorcycles \$5,153,850; other tangible property \$627,130; locally assessed railroad, telephone, telegraph, etc., \$560,354.

**Rhodes' Homers Beat Cards**  
NEW YORK (AP)—Jim (Dusty) Rhodes smashed three home runs and Willie Mays clouted his 36th homer off the season as the New York Giants broke out of their six-game losing streak with a resounding 10-0 triumph over the St. Louis Cardinals today.

**Kroencke's Band Concert Thursday**

Kroencke's Concert Band will give its weekly concert Thursday night at 8 o'clock at Liberty Park. The following program will be presented: "Gloria March" by F. H. Loeys; "April in Portugal," by Paul Peral; "Missouri Waltz" by F. K. Logan; "Tenth Regiment March" by R. B. Hall; overture, "The Silver Bell," Schlegel; "Alexander's Ragtime Band" by I. Berlin; "Till I Waltz Again With You" by S. Prosen; "The Man of the Hour," march, H. J. Wood; "American Patrol" by Maccham; "Ragged Rosey Trombone Delight" by K. L. King; "Beer Barrel Polka" by Lew Brown; "King Cotton March" by John Philip Sousa and "Star Spangled Banner" by Key.

The 226-128 roll call vote ratified tentative approval given the bill yesterday after seven hours of debate.

The bill drew most of its support from Democrats, with 144 Democrats, 121 Republicans and 1 Independent voting for it. Against it were 85 Republicans and 43 Democrats.

The bill is the last of the appropriation measures to be considered by the House this year.

## Air-Conditioned for Your Comfort

## Bank Robbers Take \$40,174 At Pevely

PEVELY, Mo. (P) — A pair of armed bandits, who went about their work calmly, cleaned the Bank of Pevely of all its money—\$40,174—yesterday, then avoided police road blocks in the area.

Their escape car was found abandoned on a country road 3½ miles from here a few hours later. Missouri highway patrolmen believe the men had another car waiting there.

"The first I knew about it was when one of the men climbed over the top of the tellers' cages—about eight feet high—and looked into the loan department," said William A. Weber, 38, bank cashier.

The bandit ordered Weber and R. W. Hornsey, 75, chairman of the bank's board of directors, to lie face down on the floor.

He then unlocked the door to the room, letting in his partner and three women employees.

Weber said one robber told him "you get into the vault. Hurry up and you won't get hurt."

Weber opened the safe and emptied its contents into two duffel bags provided by the bandits. Money also was taken from the tellers' cash drawers.

The bandits then ordered the five persons into the vault, but left the door partly open when told they couldn't get air if the vault was closed.

Weber notified the Highway Patrol after the men left. Road blocks were set up and the patrol put a plane into the air.

Lt. W. S. Barton in the plane found the escape car, which was reported to have been stolen earlier in St. Louis, 27 miles north of here.

The bandits didn't miss a penny. Bank officials said later. In the loot was about \$100 in change, \$2,000 in \$50 and \$100 bills and the rest in smaller bills. Bonds believed to have been taken were found later on a shelf.

Arrangements were made for a St. Louis bank to send money here so the robbed bank can open to day.

Both bandits were described as about 38 to 40 years old. One wore a white mask. The other wore sunglasses. Both wore mechanics' coveralls.

Jefferson County sheriff's deputies and FBI agents joined in the manhunt.

## Family Has More Than Its Share of Trouble During the Past Week

CAPE GIRARDEAU, Mo. — The family of James Trentham of near Lutesville in Bollinger County has had more than its share of trouble this past week.

Trentham was dismissed from a hospital here last Friday after undergoing surgery. His 4-year-old daughter, Wilma, died at the hospital Sunday of a severe form of diarrhea.

Trentham's mother, Mrs. W. C. Trentham, entered the hospital that same day for treatment of an arm fractured in a fall. His 2-month-old son, James, Jr., is a patient at the hospital now with the same ailment that killed the daughter.

## Surface Crack Opens At Observation Area

NIAGARA FALLS, N. Y. (P) — A surface crack developed today in the rock at Prospect Point, famous observation area at the brink of the American falls, and the area was roped off in fear that a segment might collapse into the Niagara Gorge.

Engineers from the Niagara Frontier State Park Commission began a detailed survey of the area.

The crack, a foot wide in places, began at the edge of the escarpment about 50 feet downstream from the brink of the falls.

## Carroll Explains City Drainage Problems To Optimists, Asks Public's Cooperation

John Carroll, alderman from the first ward, was the speaker at the Optimist Club Tuesday noon at the Bothwell Hotel, taking for his subject, "The Drainage System of the City for Street Improvement and Drainage and Plans Being Made Which Must Have the Cooperation of the Citizens to Be Carried Through."

The meeting was presided over by Dr. K. L. Holden with invocation by the Rev. Robert Reinhardt, C. P. S.

Singing was led by Charles Hanna, with Miss Lillian Fox at the piano.

A report on plans for the boys work program was given by John Straka. A meeting of the boys' work committee was held Monday night and Mr. Straka stated that the first thing planned was the bicycle program, for which members will be given Optimist safety tags of bright colors for their bicycles which may be seen for night. He also told of plans for boxing and basketball, as well as the baseball program.

Guests introduced were Tommy Sanders and Larry and Bob Holden.

The speaker was introduced by Harold Barrick, program chairman. Excerpts from Mr. Carroll's speech followed:

"Until elected to office, as an alderman of the First Ward, I'm afraid, I was too much like a lot of our citizens, in that I took everything for granted as far as our city government was concerned."

By this, I mean, I would jump in my car and go to town, never once giving a thought as to (how or what) went into the making of the streets I was traveling over. And when it rained, it never entered my mind that some one, some time, had taken the time to see that the water ran properly. If the street or water problems did not function properly, under my breath, I would mutter that the city hall should do something about this, never once stopping to think that it was also my responsibility, as well as the city hall's."

Now, after one year as councilman, and a member of the finance and tax committee, street and alley committee and chairman of public buildings and grounds committee of this city, I can better appreciate the problems of the city."

Today, I would like to present to you just one of our problems, namely, drainage and its effect on our streets."

The city is attempting to set up a 10 year street improvement program and a major part of this program is the correction of the (on and off) street drainage problem. A street is no better than its drainage and depends on both for service. With approximately 70% of our streets unimproved, you can readily see that this is a serious problem and is becoming increasingly serious with the construction of so many new homes."

The building of these new homes and streets sharply increase the amount of water that will run off and it must be taken care of. A great many of the chuck holes in our streets are caused by poor base and improper drainage. The cause of poor drainage are man made."

I mean by that, for example, that you will find our ditches with driveways across, filled with

dirt or gravel, too small a culvert or tile, lawn clippings, brush, leaves, cans or bottles and what have you, filling the ditches.

Also by improper foresight in not laying some of the streets on grade, and a host of other things can force the water to stand along the sides or in the street. This will help to soften the base and cause chuck holes, and breaking off of the surface on the sides. All the patching will never completely stop these holes from forming, if water continues to seep through under the surface.

Another vital thing that must always be guarded against is the health of our citizens, and the poor drainage does help this situation, if mosquito pools and refuse are allowed to accumulate in these ditches. As I see it, each of us must share the responsibility and each do his part in correcting some of these conditions. There are many problems that can and do cause poor drainage besides the ones already mentioned, but the important thing is: what can be done by the cooperation of our citizens and how far we can go at the city hall to remedy these situations."

We have done this much already. We have purchased two new graders for street and drainage work, but first things first, they are being used now to pull the ditches in the four wards and bring the streets to a grade on our unimproved areas."

When I speak of pulling the ditches and bringing the streets to grade, I mean cleaning them out and sloping them, so we have a uniform runoff of water. When we started our program, we ran into many snags: drainage pipes and culverts for walks and drives were too small, broken tiles appeared often and improperly placed tiles and drive covers with no tile at all. Now as to the most feasible correction effort, the city street inspector, at the time of pulling the ditches, is to inform the property owners about these streets and the proper size of culvert and tile needed that they must obtain to put in their drives. These must be uniform in size, as the particular street may require. If they have the right size, or after they have secured the correct size, the city will place the tile or metal culverts, but not clay tile, which breaks easily."

By doing these things in this manner, we can be assured of good clean ditches with an even flow of water which will make good drainage."

Why do we have ditches at all, when curb and gutter will do a much better job? Curb and gutter will decrease the city's maintenance cost and free a part of the tax dollar for the other much needed improvements to our city."

Curbs and gutters increase the valuation of your property and when a street has this and a good base, it does not have the chances to get the holes and break-down of the surface or the edges. We at the city hall, as your elected officers, are indeed proud to see

that more and more of our citizens are seeing it this way, because we are getting an increased amount of requests for this curb and gutter work."

Last year, as my first year on the council, when a curb and gutter request came in and was advertised for bids, the cost to the property was usually about \$1.70 a front foot. Now that we are getting more requests for this work the volume has increased and we have had bids recently for as low as \$1.48 a front foot. At this rate of approximately \$1.50 a front foot, a 50 foot lot would cost \$75 and you have five years to pay for this if you so desire or on issue of your yearly tax bill."

Now with proper drainage (curb and gutter) one can put on the proper base and have a street to be proud of, for example, we were very pleased to see the citizens on Sneed Avenue from Broadway to 14th street recently take the initiative and petition the city for the proper base and finished to cost them not more than \$1.25 per front foot. The City as part of its street improvement program will contribute the equipment and labor in excess of the contribution of the property owners."

Here is a good example of cooperation between the residents of this city to overcome a base and drainage problem and at the same time provide a street of a permanent nature upon completion."

The entire drainage problem as far as curb and gutter work is concerned and good streets, rests in your hands as citizens of this city. Do you want these improvements so you can get out of the mud, dust and chuck holes? We at the city hall can not force you to do this work, nor can we do it for you unless you are willing to shoulder your part of the load. When we are requested, we will do our utmost to see that the work is done to the specifications of our engineering department and in such a manner that you will get value received for your dollars spent."

Unfortunately there remains several drainage problems that can be corrected only by storm sewers. The storm sewers get the final load of all the water as it is channeled off from the various streets. A great many of these sewers need to be improved, but I am not prepared at this time to give you any information as to just what will have to be done, but I will say, that studies are being made by the engineering department on how it is best to overcome these situations."

Some work has been done in the past and I can assure you that there will be more done in the future, because of necessity."

Overcoming our drainage and street problem is a responsibility for every citizen of Sedalia. We must all shoulder this burden and recognize the part we must play in making Sedalia a better place in which to live, to work and enjoy life in, because I hope you all feel as I do, that you can lift your head and say, I am proud to be a Sedalian."

## Asks Agriculture Department for Basis Of Shipment Refusal

WASHINGTON, (P) — Rep. Hruska (R-Nebr.) has asked the Department of Agriculture why it refuses to permit government grain to be shipped by barge from Omaha.

Hruska told a reporter inquiries had come to him about this and that he has asked the department for an explanation. He said he wanted to know whether this is department or government policy and, if so, why and how long it has been in effect.

Signs Point to Murder In Garage Man's Death

TRENTON, Mo. (P) — Sheriff George Mapes reported today evidence in the shooting of Wayne Batson, Trenton garage operator, points to murder.

The 53-year-old Batson was found dead in a ditch alongside a Grundy county gravel road. He had been shot four times. One window of his automobile, standing nearby, had been pierced by a bullet.

Batson's niece, May Cleek, said a telephone call came about 10 p.m. Monday asking Batson to drive out into the country and repair an automobile. When Batson failed to return, Miss Cleek notified the sheriff. The body was found yesterday.

## Campaign Signs Cause Trouble In St. Louis

ST. LOUIS, (P) — The campaign for the Aug. 3 primary here has not stirred up much excitement but the posting of campaign stickers got city and post office officials upset yesterday.

The stickers for various candidates have been placed freely on mail boxes, traffic signs, fire alarm boxes and utility poles—all of them illegal.

Some stop signs were found partially obscured.

Postmaster Bernard F. Dickman said the postal inspector's office would take up the matter today. Traffic Commissioner Charles G. Gonter plans to discuss the subject with Chief of Police Jeremiah O'Connell.

## Sen. Ellender Wins Easily In Louisiana

NEW ORLEANS (AP)—Sen. Allen Joseph Ellender—a Louisiana senator since 1936—easily won Democratic nomination yesterday for a fourth six-year term.

The nomination almost always means election in this heavily Democratic state.

The 63-year-old south Louisiana lawyer-farmer, who once was Huey Long's leader in the State House of Representatives, won over two opponents by a plurality which seemed certain to hit 100,000.

The votes to give him this heavy edge came from parishes (counties) outside New Orleans, home of his chief opponent, Frank B. Ellis.

Ellis, Democratic national committeeman, carried Orleans Parish (New Orleans) by more than 4,000 votes.

The count with 1,891 of the state's 2,036 precincts complete, was:

Ellender, 252,815; Ellis, 154,008; State Rep. Gilbert Faut of Monroe, 19,527.

In five district congressional races all incumbents won handsily. Three other incumbents were not opposed for renomination.

Nominated without opposition were Representatives F. Edward Herbert of New Orleans, 1st District; Otto E. Passman, Monroe, 5th District; and James H. Morrison, Hammond, 6th District.

Other incumbents forced to win contests were:

Representatives Overton Brooks, Shreveport, 4th District; Hale Hogg, New Orleans, 2nd District; Edwin E. Willis, St. Martinville, 3rd District; T. A. Thompson, Ville Platte, 7th District; and George S. Long of Pineville, 8th District. Brooks and Hogg won renomination by top-heavy margins.

In the 2nd District, Boggs captured his sixth House term, leading Maurice B. Gatlin of New Orleans 51,144 to 4,537 with 252 of 434 precincts counted.

Brooks defeated Mrs. H. H. Thompson, 37-year-old Shreveport housewife, by a lopsided vote in the 4th District. With 139 of 220 precincts reported, it was Brooks, 28,341; Mrs. Thompson, 3,827.

Rep. Long, 70-year-old brother of the late Sen. Huey P. Long, had a better than 2-1 edge over D. M. Riddle of Marksville in the 8th District, with 275 of 319 precincts counted. Long had 32,042; Riddle, 14,693.

In the 7th District, Thompson won renomination over his two opponents. With 234 of 253 precincts complete, it was Thompson, 41,794; Sam Tarleton, Lake Charles, 11,619; and John Clark of Eunice, 7,784.

Willis held a 7,226-vote lead over former State Sen. Dudley J. LeBlanc of Abbeville with only six precincts out in the 3rd District. With 234 of 240 precincts reporting, Willis received 29,211 and LeBlanc had 21,985.

## Would Have Private Industry Produce Three Defense Items

WASHINGTON (AP)—Secretary of the Interior McKay is urging that the government turn over to private industry its facilities for producing three important defense items—helium, titanium and zirconium.

McKay announced last night he had approved the recommendations of a five-man survey team that these steps be carried out as soon as possible.

In the case of zirconium and titanium—often called wonder metals—the team suggested, however, that the government continue production until private industry can produce more of the vital metals.

## Outlines Plan For Tobacco Study Awards

NEW YORK (AP)—The tobacco industry research committee has outlined a three-fold program on the basis of which it will award funds for scientific study of tobacco and its effects on smokers.

Dr. Clarence Cook Little, scientific director of the committee, said yesterday that research will be conducted in these three areas:

"1. Study of the physical and chemical composition of tobacco and accompanying products.

"2. Study of tissue changes in humans and in animals under various conditions.

"3. Study of smoking and other tobacco habits and of the emotional and physical makeup of smokers."

Little said the committee's advisory board is reviewing applications for specific research projects. The committee was set up this year with an initial fund of \$500,000 provided by cigarette manufacturers, tobacco growers and warehouse associations.

Formation of the committee was announced following reports that cancer was linked to cigarette smoking. Validity of these reports has been questioned by tobacco industry spokesmen and others.

## Racial Segregation Ends In Springfield

SPRINGFIELD (AP)—Racial segregation ends this fall in the public schools of Springfield.

Announcement of the plan was made last night by the city's board of education.

The city's one Negro school will operate this fall on a voluntary basis because the 17 teachers had been placed under contract before the board's decision was reached. Children of any race, creed or color may attend this school if they wish.

## Former KC University Head Dies At 85

PHILADELPHIA (AP)—A widely known educator, the first president of the University of Kansas City, died Tuesday at his home in the Philadelphia suburb of Wayne. He was 85-year-old Dr. J. Duncan Spaeth, an authority on Shakespeare and the "father of Princeton rowing."

He started a long career at Princeton in 1911 and coached at the university 15 years.

He retired from Princeton in 1936 and served as president of the University of Kansas City until June 15, 1938, developing the early educational program at the school.

# Ike Says US Will Defend Its Rights

WASHINGTON (AP) — President Eisenhower said today this country does not mean to be truculent toward the Chinese Communists as a result of the recent attacks on U. S. and British planes but does propose to defend its rights.

Referring to his news conference to the plane shooting incidents and the Red Chinese charges against this country, Eisenhower said he believes the Communist position is part of a plan to separate the United States from its allies and split the West.

He gave a flat denial to Red charges that the two American planes recently fired upon were in Communist territory.

Eisenhower said he is perfectly certain the U.S. planes were where they should have been and were on legitimate business.

And, the President said, the U.S. task force which entered the disputed area to aid in the search for survivors of the British plane shot down by the Reds should be leaving the area momentarily because the mission is completed.

The President was asked about news reports indicating that the French in particular were uneasy over U.S. action with regard to the shooting and regarded this government as too truculent.

Eisenhower said we don't mean to be truculent. But, he said firmly, we do mean to defend our rights.

This nation, meanwhile, was seeking by strong words and tough action to warn Red China against the dangers of any more plane shooting incidents.

But U. S. officials were by no means certain that such outbreaks could be prevented in the future. In fact, the existence of open conflict between Communist China and the Chinese Nationalist government on Formosa is regarded as carrying a grave risk of more such affairs.

## 4-H Hustlers Visit Sedalia Plants

Wednesday a group of Camp Branch Hustlers 4-H Club members visited several of Sedalia's industries and institutions and had a picnic lunch at Liberty Park at noon.

They were with Mrs. Carl Arnett and among places visited were: the National Engineering plant, Meadow Gold Ice cream plant, Royal Crown bottling works and the Sedalia Democrat-Capital offices.

## Trades \$100,000 Check for Only \$100 And Comes Out Ahead

NEW YORK (AP)—Stanley Russell exchanged a \$100,000 check today for one worth only \$100—and came out ahead.

Russell found the \$100,000 check on a street yesterday after a Union Dime Savings Bank messenger had lost it.

He notified the institution, which soon ascertained that it was made out to the Chase National Bank and could not be cashed by anyone else. Russell was asked to return it when convenient.

So today, after taking it home overnight for his wife and three daughters to have a look at such a rarity, the 45-year-old manager for a typewriter sales agency called at Union Dime's offices.

He was greeted by bank President J. Wilbur Lewis, who handed him another check for \$100,000 and said it was not a reward but "just to show our appreciation for the trouble given you."

## Says Suez Agreement Saves Main British Middle East Needs

LONDON (AP)—Foreign Secretary Anthony Eden said today Britain's new defense agreement with Egypt preserves the nation's "essential requirements" in the Middle East in the age of the hydrogen bomb.

He told Parliament the Churchill government's decision to withdraw its forces from the Suez Canal zone "should contribute to a reduction of tension in the Middle East as a whole."

Eden spoke in the face of bitter opposition from a rebellious group of his own Conservative party supporters who have long resisted suggestions that Britain should quit the zone.

He announced, in answer to Laborite questioning, that the United States and France together with this country are determined to help in guarding the uneasy peace between the Arab nations and the Jewish state of Israel.

## British Frogman Dies After Shark Attack

SINGAPORE (AP)—A British navy frogman searching the Singapore harbor bed for dumped opium died after being attacked by a shark today.

He was bitten on a thigh and both hands, but managed to struggle to the surface. He died before reaching a hospital.

## Red Cross Swim Picnic

Mrs. L. O. Griffith, Jr., Red Cross swimming instructor, will entertain those who assisted with the swimming classes this summer at a picnic supper Wednesday, July 28th, 6:00 p.m. at Liberty Park. The following will attend: Mrs. James Blue, Mrs. Gary Genie, Mrs. Mary Alice Shelley, Miss Nancy Lester, Miss Joyce Yeoman, Duane Miller, Dick Stohr, Mike Weiser, and Mrs. Eula R. Spencer.

# DAILY RECORD

## Future Subscribers

Son to Mr. and Mrs. Roy Donnell, Cole Camp, on July 25 at the Wetzel Hospital, Clinton.

## City Hospitals

BOTHWELL — Medical: Karl Larson, 512 Wilkerson; William P. Coe, 634 East Third.

Dismissed: George Hull, 1113 West Main; Jerry McKenna, Edwards; Mrs. John M. McFarland and daughter, 523 East Chestnut.

WOODLAND — Surgery: Mrs. Harry W. Meyer, 501 North Quincy.

## In Other Hospitals

Gravett Bruges, Stover, was taken to the Krest Haven Hospital in Kansas City. He had been ill several weeks previously at his home.

Charles Homer Loucks Jr., 12-year-old son of Mr. and Mrs. Charles Loucks, 1713 Osage, was admitted to Children's Mercy Hospital July 26. He had orthopedic surgery on Tuesday.

Linda Lea Greer, 10-year-old daughter of Mr. and Mrs. Ellis Greer, 1410 East Fifth, was dismissed from the hospital July 25. She was admitted July 7.

Gary George Higginsville, is a patient at Mercy Hospital, Kansas City, a victim of polio. His parents are Mr. and Mrs. Warren George, Higginsville, and Mr. and Mrs. Edgar George and Mr. and Mrs. D. T. Layne of Bunceton are grandparents.

## Accidents

A Chevrolet sedan driven by T. J. Raines, 76, route 2, Nelson, was badly damaged and a truck of the Home Lumber Co., damaged in a collision near Post on county road E, east of Longwood about 5:50 p.m. Tuesday. Occupants of the vehicles were not injured. The State Highway Patrol investigated the accident.

According to the report, Raines was driving out of a driveway and the front end of the Chevrolet and the left rear wheel of the truck which was driven by Jesse Finch, Hughesville, collided.

The front end of the Chevrolet was damaged and the rear wheel and driveshaft on the truck was damaged. The truck belongs to the Home Lumber Co., of Sedalia.

## Police Reports

Police were called to Vermont Park where boys were playing with fire. When officers arrived the boys had already disappeared. The call was received about 8:30 p.m. Tuesday.

A window at the Home Lumber Co., Third and Massachusetts, was broken out Tuesday night. Police investigated, found the man, but the company did not want to prosecute.

The Shell Service Station, Main and Missouri, was found unlocked by the police at 1:35 a.m. Wednesday. Nothing appeared to be missing.

## Police Court

George Lovercamp, 644 East 11th, charged with double parking in the 200 block on South Lamine, forfeited a \$2 cash bond.

Mervin Teague, St. Francis Hotel, charged with not having a city automobile license sticker, forfeited a \$5 cash bond.

George Heiss, Sedalia Air Force Base, charged with careless driving on Main from Missouri to State Fair Blvd., pleaded guilty to Judge R. L. Weinrich and was fined \$25.

Six overtime parking violators failed to appear in court and their cash bonds of \$1 each were ordered forfeited.

## Probate Court

Letters of administration were issued Wednesday in the estate of the late Edward W. Schlusing, who died July 12, to a brother, Henry C. Schlusing, Knob Noster. He is also listed as an heir, as are a sister, Mrs. Margaret M. Ficklen, La Monte, and two nieces, Katie Mahin, Monroe City, and Dorothy Clarkson, Kansas City. Attorney for the estate is Leo J. Harned.

## Circuit Court

Richard C. Kronk Sr., Sedalia, pleaded guilty Tuesday to a charge of issuing a "bogus" check and was sentenced to two years in the state penitentiary at Jefferson City. The check, for \$9.96, was issued July 3 to Howard Roberts and drawn on the Third National Bank.

An earlier charge for a similar offense was dropped Tuesday.

Mrs. Carole Scott filed suit on Tuesday for a divorce from Willis H. Scott. She also asks custody of their two minor children and child support. Her attorney is James E. Durlay.

A suit for divorce, filed by Mrs. Ruth Staus against Virgil Staus, was dismissed by her Tuesday. Her attorney was Harold W. Barlick.

## Marshall City Manager Resigns for Similar Position In Kansas

MARSHALL, Mo., July 28 (AP)—Deane P. Wiley, city manager here for the last seven months, has resigned to take a similar position at Garden City, Kan.

In his letter of resignation to the city council yesterday, Wiley said he was taking the new position because Marshall residents voted out the council-manager plan in the election May 25.

# Oklahoma Demos Choose Raymond Gary

OKLAHOMA CITY (AP) — Oklahoma Democrats nominated a handsome, 46-year-old state senator as their candidate for governor in yesterday's runoff primary and ousted a five-term lieutenant governor in favor of colorful Cowboy Pink Williams.

State Sen. Raymond Gary of Madill, who trailed by 2,746 votes in the July 6 primary, climaxed the heated runoff campaign for governor with a solid 17,000-vote margin over William O. Coe, Coe narrowly beating Gov. Johnston Murray by less than 1,000 votes four years ago.

Democrats chose Williams, salty-tongued, 62-year-old Caddo rancher whose "obscene" postal cards got him in trouble with federal officials, as their candidate for lieutenant governor. Williams shelved James E. Berry, 72, seeking his sixth term, 221,193 to 201,692, with almost all votes tabulated.

Fred Meek, a political newcomer who served briefly as U. S. district attorney here, won the Republican nod to face Sen. Robert S. Kerr (D-Okla.) in the Nov. 2 general election. He defeated Raymond Fields, Guyton publisher and party stalwart seeking the nomination for the second time.

She was admitted July 7. Linda Lea Greer, 10-year-old daughter of Mr. and Mrs. Ellis Greer, 1410 East Fifth, was dismissed from the hospital July 25. She was admitted July 7.

Gary George Higginsville, is a patient at Mercy Hospital, Kansas City, a victim of polio. His parents are Mr. and Mrs. Warren George, Higginsville, and Mr. and Mrs. Edgar George and Mr. and Mrs. D. T. Layne of Bunceton are grandparents.

In his letter of resignation to the city council yesterday, Wiley said he was taking the new position because Marshall residents voted out the council-manager plan in the election May 25.

FEATHERED RAPIER—A secretary bird, native of the Sahara Desert, stands out at a helpless snake at the rare-bird farm in Miami, Fla. The fierce-looking bird feeds on snakes and lizards.

## Bob Thomas In Hollywood—

# Her Name Was Dropped Years Ago, But Mary Brian Returns

By HUBBARD KEAVY (For Bob Thomas)

HOLLYWOOD (AP) — If the name of a movie player is dropped from the Motion Picture Almanac, as it always is when the person is inactive for a year, he's usually had it. As a rule, it means he's through.

Mary Brian's name was dropped years and years ago and except for two marriages and one divorce, she has not made news. But she is a candidate today for any television guide because she has come out of quiet retirement to play the

mother of Corliss Archer in a 39-installment TV series.

Texas-born Mary was 20 and pretty when she was tapped for the role of Wendy in the 1928 version of "Peter Pan." A matured beauty today, 26 years later, she thinks that the movies treated her very well and she has no regrets. When Mary made a brief TV appearance, it gave an alert agent the idea of casting Mary as Corliss' mother. Would she like it? Mary said she would if the part was interesting. When she was called for tests, she asked what she was supposed to wear. "Whatever you wear around the house," she was told.

"But the director didn't know that around the house I wear shorts and pedal pushers," Mary says. "I had to rush out and buy what I am told are house dresses. Well, not exactly house dresses, but some nicely tailored things. I'm sure Mrs. Archer will never be caught in shorts."

Funds derived from the social are used in the Lions children's work and other worthwhile activities. In previous years more than 2,500 tickets were sold and this year the goal was set at 3,000.

Virgil Herrick, general chairman, announced the various committees to handle the functions of the social. He also announced that Fourth Street will be blocked off in the afternoon and the street and concrete used car lot will be washed down preparing for the opening at 5 p.m. The social will carry on until at least 10 p.m.

Entertainment of square dancing is to be enjoyed for all who care to participate.

Guests at the noon day meeting were: Keith Venberg, Kansas City with A. L. Gardner; Lawrence Barrett, Marshall, with Harold Seaberg.

The president, Dr. David H. Robinson presided at the meeting.

Hunger Strike Causes Tension, No Violence At Washington Prison

WALLA WALLA, Wash. (AP) — An unexplained hunger strike by 1,400 prisoners caused tension but no violence at the Washington State Penitentiary today.

The inmates, who started skipping meals yesterday, spent the night quietly in their cells and the normal breakfast hour passed with no demands from the men.

Officials planned to start polling the individual cell by cell, heeding 100 to 400 convicts, and offer each group a chance to eat.

The state patrol sent additional men here to reinforce the guards but Warden John Carnors' office reported "everything quiet and orderly."

Cohen Is Cleared In Girl's Murder

INDIANAPOLIS (AP)—Authorities today dismissed a charge of being an accessory after the fact of murder that had been filed against Albert Cohen, 38, an East St. Louis, Ill., contractor, in the Claypool Hotel dresser drawer slaying.

The charge was filed after Cohen's former employer, Victor H. Lively, 25, had involved him in the disposition of the body of 18-year-old Dorothy Moore, Lively is held on a murder charge in the death of the girl, whose body was found stuffed in a dresser drawer.

Cohen said he intended to return immediately to East St. Louis.

Police Capt. Robert E. Reilly said a lie detector test indicated Cohen had no connection with the slaying. Reilly said also business records supplied by Cohen showed he had been in East St. Louis from July 13 until his arrest late Monday. The body was found July 18 and police have fixed July 16 as the date of the killing.

# Man Admits Widespread 'Crime Spree'

DES MOINES (AP) — R. W. Nebergall, chief of the Iowa Bureau of Investigation, said today that a man held in the holdup slaying of an Iowa farmer has admitted "a widespread crime spree."

Nebergall said his agents will attempt to develop "chapter and verse" of the armed robberies which William G. Karston, 29, Hamilton, Ill., told authorities he had taken part in throughout the Midwest and on the West Coast.

Karston and his half brother, Almer Anderson, 22, South St. Paul, Minn., were captured Monday near Carthage, Ill., and returned to Bloomfield, Iowa, in Sunday slaying of Wendell W. Jones, 56, Pulaske, Iowa, farmer.

County Attorney Charles Pettit of Bloomfield said first degree murder charges were being drawn against both men because Anderson took part in the 381 holdup during which Karston has admitted he fired two shots into Jones.

At Carthage, Ill., States Attorney Preston Kimball said Karston told officers that since 1951 he had staged robberies and holdups in Oklahoma, Missouri, Texas, Kansas, Illinois, Wisconsin, Utah, Wyoming, California, Oregon and Washington.

Kimball and Nebergall said Karston was released from a St. Cloud, Minn., reformatory in 1951 but soon began a series of "about 30" robberies and burglaries of taverns, grain elevators and filling stations over a wide area.

Karston said his biggest haul was "this split" of \$1,500 from the \$9,000 in the holdup of a gambling casino near Tulsa, Okla., in which three other men also took part.

## Lions See Film On Coffee Making

"Flavor In The Making," a motion picture on the production of coffee, was shown to the members of the Sedalia Lions Club at its room day meeting Wednesday in the Ambassador Room of the Bothwell Hotel.

The Lions spent the greater portion of their meeting discussing the annual ice cream social to be held on the O'Connor Chevrolet-Buick used car lot, Fourth and Kentucky, Saturday night, July 31. The organization is hoping for the sale of at least 3,000 dishes of ice cream and the serving of more than 110 home made cakes.

Funds derived from the social are used in the Lions children's work and other worthwhile activities. In previous years more than 2,500 tickets were sold and this year the goal was set at 3,000.

Virgil Herrick, general chairman, announced the various committees to handle the functions of the social. He also announced that Fourth Street will be blocked off in the afternoon and the street and concrete used car lot will be washed down preparing for the opening at 5 p.m. The social will carry on until at least 10 p.m.

VICTIM OF "CLIP-JOINT"—Hollering for all he's worth as he's about to get his first haircut is Dale Jeffrey Hallman, left, of Cleveland, Ohio. Almost three years old, he is the son of Sgt. Robert Hallman and his wife, Joan. Just back from Korea, Sergeant Hallman, wanted to be on hand for Dale's first haircut, so the locks were allowed to grow. When it was all over, Dale looked into the mirror and said, "all gone."

## Hal Boyle's Column-- Facts, Fancies and Figures From Ye Old Oddity Almanac

NEW YORK.—Facts, fancies and figures from an oddity almanac in a modern world:

Let's start off with the girls, since they interest everyone. Are "falsies" really necessary? Even girls torn by doubt, or stern feminine honesty, now have a choice in their solution. A manufacturer has come out with a brassiere coated with a thin layer of foam rubber to achieve a desired silhouette, and claims he is doing very well overseas from Belgium to Peru.

Do you know how often your heart beats? If you live the biblical span of 70 years, it will pulse between two and three billion times. The encyclopedias are chary of saying how often the average human heart beats. They don't want to worry you, but mine checks 73 when I am not worried, and 100 plus when the boss is looking. But they will tell you that a horse's heart beats 30 times a minute; these are the ones I bet and lose on; and a mouse races his pumper 500 to 1,000 times every 60 seconds.

Names not only make news they also make you wonder. The town of Smackover, Ark., for example, came from the French term, Chemin Couvert, meaning covered road, and I can't find out why. The authorities all agree on Smackover, but nobody I know claims to know how Wham, La., got its punch. Business firms are easier to trace. The Rugercoffers, a major hand-woven rug company now in Puerto Rico, migrated from North Carolina, where its weavers still held to the old Scottish word "croft," meaning a small farm.

You probably never bothered to think about how the great Shell Oil Co. got its tag. Well, back in the 1890s it was a small general trading company that, among other things, earned a fast buck by importing sea shells from the Orient to make mother of pearl. Then it stumbled into oil, and quit worrying about the button market.

But suppose it had adopted the title, "Mother of Pearl, Inc.," and then had to go into the world market peddling gasoline? An industrial outfit can, of course, change its corporate name to meet the purposes of its life. But a child is more reluctant to turn upon its parents, and this is why every parent should give a child at least four names at birth, so that later in

life it can have a choice if it feels it needs it.

The almanac editorial: Last winter, as usual, we warned our readers against the spreading prevalence of the common cold, which year after year begins more and more to resemble "virus X," an ailment for people who, for personal reasons, prefer to catch an uncommon cold.

Now we summon our subscribers to a concerted attack on ragweed, which many of our friends say causes them to suffer from hay fever, a disease they say is an allergy.

Personally, we think that a guy who gets a common cold in the winter, and insists on calling it "virus X," is naturally subject to hay fever, which we ourselves believe is a summer cold. But you can't deny a friend the pleasure of making his own malady mysterious.

So do your neighbors a good turn. Attack and destroy ragweed—root, stalk and pollen—wherever it leers a green head. There is no market for the stuff anyway.

Editors Note: This issue of the oddities almanac is skipping its usual science department notes because the man assigned to this field took a new wonder drug and, as we go to press, is still too sick to describe its benefits to mankind.

Almanac quotes to live a life by: "Does his own fatal passion become to each man his god?"—Virgil.

"Success is the child of audacity!"—Disraeli.

Almanac long-range weather forecast: Hot air storms, spreading across entire country and reaching a peak just before autumn elections; followed by cooling showers.

### In series of DOCTORS' TESTS 90% OF CASES OF PILES PAIN RELIEVED!

SWELLING REDUCED WITHOUT SURGERY! In 8 out of 10 cases of simple piles, tested by doctors, amazing Pazo Ointment stopped bleeding, reduced swelling, healed cracking, and shrank piles WITHOUT SURGERY! by A. B. WARREN  
For the first time in many years there is a new and better Hog Wormer... it's Cadmium. It has had a lot of publicity in various trade journals as well as farm publications. It is said to be very highly efficient in removing large round worms, some say close to 100%. Researchers say that hogs like to eat feed containing Cadmium, that it can be fed indefinitely without any harmful effects and that it is not harmful to other animals such as chickens and dogs or any other farm animal that might eat the feed containing it.  
We have had several inquiries about Cadmium from large raisers of hogs, it has just been released and we have adequate stocks.

## Merry-Go-Round

### Wall Street Has Eyes On Future

#### Atomic Power; Gore Compromises

By Drew Pearson

WASHINGTON—The inside story of the great filibuster in modern senate history can now be told. Whatever you may say about filibusters, this one also concerned one of the most important bills in modern times.

It established machinery governing the atomic power that will run the nation's factories and electric-light plants in the next 75 years.

In the past, the great water-power sites of the United States have been developed in part by private utilities, in part by the government. But the basic battle in the atomic energy bill was the giving of all atomic power to private industry. The government would have no look-in at all. At one point Senator Hickenlooper of Iowa, the Republican in charge of the bill for the Eisenhower forces, even introduced an amendment banning the government from spending any funds whatsoever from developing commercial power.

Chief backer and pusher of the atomic power bill was Adm. Lewis Strauss, chairman of the atomic energy commission and partner of the Wall Street banking firm of Kuhn, Loeb and Co. This is one of the big investment bankers which have been financing the private power companies anxious to get a grip on atomic power.

Another Wall Street investment firm, Lehman Brothers, has hired Gordon Dean, former chairman of the Atomic Energy Commission; while a third big Wall Street firm, Lazard Freres, has hired David Lilienthal, another former AEC chairman. Both men have kept carefully aloof from the legislative battle, however.

#### Backstage Strategy

These were the backstage factors which caused a group of senators to meet in the District of Columbia Senate Committee room about 10 days ago to pledge a battle to the bitter end against the atomic bill. At that meeting, Sen. Lister Hill of Alabama, one of the senior southern Democrats, was appointed captain of the group, with Sens. Albert Gore of Tennessee and Clinton Anderson of New Mexico the lieutenants in charge of amendments.

It was agreed that there would be a carefully arranged schedule of speakers with each man taking his turn.

"I'm prepared to speak six hours a day," declared able Senator Gore of Tennessee enthusiastically. "With this plan we can carry on from now until Christmas."

Little did the group realize that the man who spoke, despite his ability, would be the first to crumble when the fighting got tough.

For three days the filibuster operated with clocklike precision. Every speaker was in his place at the right time, carried on for the allotted length of time. It looked as if they could operate indefinitely.

But last Friday night, as Knowland of California fought in vain to stop the filibuster, three things happened. One was petty and personal, only important in a body where alleged statesmen can put personal prestige ahead of issues that affect the nation.

#### Personal Prestige

It began with a statement by Sen. John Sparkman of Alabama that the Republican leadership might better consult those who were doing the real fighting against the atom giveaway rather than consult the alleged Democratic leadership.

What Sparkman indirectly referred to was the fact that Lyndon Johnson of Texas, the Democratic leader, was not leading this fight, but was sitting on the sideline. And Sparkman suggested the Republicans would be better off conferring with the leaders of the filibuster rather than the man who was not leading.

This got under Johnson's skin. He came over to Sparkman's desk on the Senate floor and waved his arms. Sparkman pounded his desk in Lyndon's face. Sparkman, the man who made the remark, was vice-presidential candidate in 1952. He has plenty of prestige. But Johnson, the man who heard it, aspires to be vice-presidential candidate—or better—in 1956.

So, later that night, "Lynin' Down Lyndon," as he is sometimes called, was heard telling Gore of Tennessee: "We're going to find out who is going to stand up and vote for my leadership rather than that of Wayne Morse."

Simultaneously, more personal pique had been injected into the battle. Knowing Lyndon Johnson's vanity, Knowland kept needing the Democrats that Morse, the Oregon Independent, was the real leader of the Democrats.

This was discussed at a secret meeting of the atom bill's opponents in Lister Hill's office late Friday at which Gore of Tennessee told Morse: "You've got to withdraw your amendment."

He referred to Morse's ban on letting Admiral Strauss become sole spokesman and, in effect, controller of the Atomic Energy Commission.

"If you don't withdraw it," argued Gore, many of the Democrats who've been voting with us will desert. Knowland has been repeating that you are the real leader and the Democrats don't like to hear you referred to that way."

"Why let Knowland run your party?" challenged the Independent Senator from Oregon. "Why not run the party yourselves?"

Nevertheless, he withdrew the anti-Strauss amendment.

#### Lyndon Knocks Props

Meanwhile, two other developments were injected into the atom battle. No. 1 was the tremendous pressure of the power lobby, especially on southern senators.

No. 2 was fear by southern senators that the Republicans would change the rules of debate at the next session and make further filibusters impossible. And the filibuster has been the chief weapon of the South in defeating legislation on the race issue.

Cloakroom huddles took place regarding this between Gore, Lyndon Johnson, and Clements of Kentucky, during which it was reported that Johnson had promised Gore a seat on the Atomic Energy Committee if he would compromise the fight.

So Gore, the man who said he could speak six hours a day until Christmas, met with Senate colleagues on Saturday afternoon in Lister Hill's office. By this time he was dead tired and understandably discouraged. So, with Stennis of Mississippi, he urged that they throw in the sponge.

But there were vigorous objections.

"How can you go back to Mississippi with the

## Removal of Kidney Stones

### May Not Require Operation

By Edwin P. Jordan, M. D.

Those who have "passed" a kidney stone usually say that this is the worst pain which they have ever experienced. Occasionally a stone may "pass" without producing any sensation, but this is the exception.

"Silent" or painless stones, however, are often present in the kidneys. In general there is no doubt that a moving kidney stone is about as painful as anything which a human being may be called on to endure.

Most kidney stones are formed in that which is called the pelvis of the kidney; that is, the irregularly shaped space inside the kidney which empties in the ureter or passageway leading to the urinary bladder.

Later, such stones may pass into the ureter, down into the bladder and out in the urine. They often stick in the ureter where they frequently produce terrific pain and bleeding.

Stones may occur at any age, but are most common between 25 and 40. They often grow so slowly as to cause few, if any, symptoms and therefore may have existed for many years before a diagnosis is made. They are somewhat more common in men than in women.

Many explanations for the formation of stones have been suggested, including slowed urinary secretion, infection, vitamin deficiency, climate, heredity and a disturbance in the manner of excretion of certain salts ordinarily excreted through the kidneys.

This latter theory has considerable support and is based on the principle of crystallization of salts with which those who have studied chemistry are familiar.

Once an acute attack of pain from kidney stones has developed, it is important to make sure that the stone does not stay permanently lodged in the ureter.

If it should stay there, it can result in serious complications by blocking the flow of urine and leading to infection and other troubles.

The location of most stones can be discovered by the use of the X-ray, and physicians with the proper equipment can generally remove the stones or assist them to pass if that seems desirable. Occasionally open operation is necessary.

The other important aspect of treatment besides removal of an existing stone is the prevention of additional stone formation. This is often a difficult problem and may involve regulating the acidity of the urine, the elimination of infections, the careful choice of diet, and sometimes the use of vitamins.

Only an expert can decide the proper steps for the individual patient and then only after the chemical composition of the stone is known.

## Ike's Health Bill

By Bruce Blossart

One of the chief hallmarks of President Eisenhower's regime is the tag, "middle of the road." Naturally, this just a phrase until it is translated into specific plans and action. In his broad legislative program, the President has tried to give the phrase meaning.

As Mr. Eisenhower sees it, "middle of the road" means a lot of emphasis on plans that call for voluntary mutual or self help by the people.

Such an approach throws upon the ordinary citizen the burden of solving many problems which, according to other views of government, have been getting strictly Washington solutions.

It was in this spirit that the President proposed his bill for health insurance. The measure was designed to encourage groups like Blue Cross to offer people more health protection at lower cost.

Under the plan, a federal fund of \$25 million would have been created to insure private health insurance organizations against heavy losses.

The principle was much the same as that under which the federal government insures bank deposits. The idea was that with such backing, the private groups would be inclined to expand their usefulness in the service of the nation's health needs.

Obviously this is not a very drastic proposal. It bears virtually no resemblance to former President Truman's plan for universal, compulsory health insurance financed by a payroll tax, in the manner of social security. It would keep the federal government's role in the health field to a minimum.

Yet the Eisenhower program went down to defeat in the House by more than 100 votes, and now must be presumed dead.

To be sure, Democrats provided two-thirds of the negative votes, motivated both by a feeling the program was too modest and by a desire to deny to the Republicans any credit for social advances. But 75 Republicans also voted "no."

The most conservative of these dragged out the old saw about "socialized medicine." Now there is such a thing, as the British can testify. But if Mr. Eisenhower's program fits that definition, then our deposit-insured banks are socialized, and so are the country's builders, who benefit from FHA-insured mortgages on new dwellings.

The fate of the President's health plan suggests that even the middle of the road looks like a dangerous spot to some people. We wonder what solutions they have for many of our major difficulties. Evidently they hope that if they sit tight and do nothing the problems will just fade away, like old soldiers.

Constantine was about to fight Maxentius, a rival for power in the Western Empire, when he had his vision of the cross.

Dixon-Yates contract remaining in this bill?" Morse asked Stennis. "And how can you go back to Tennessee, Albert Gore, and admit that you dropped a fight that means so much to your state?"

"And what will you look like when you've marched up the mountain to victory, had it within your grasp, and then marched down in retreat?" goaded Morse.

Finally it was decided to send a delegation of five senators to see Senate leader Johnson. Lyndon was outwardly courteous but hardly listened to a word they said.

More of the inside story on the great filibuster later.

## Peace In Our Time

## The World Today—Public Versus Private Power

(By James Marlow)

WASHINGTON, D. C.—The Senate fight, made by Democrats and a couple of others on the Eisenhower atomic energy law, centered mainly on the question of public versus private power.

The Democrats' fight took two directions: one involved the Tennessee Valley Authority (TVA) and the other the Atomic Energy Commission (AEC). The TVA supplies electric power to a wide area of the Middle South and to an AEC plant at Paducah, Ky. If it had not been pumping some of its juice into Paducah, TVA would have some of it in reserve for the growing power needs of its area.

To meet those needs, it asked the administration that it be allowed to build another plant. The administration didn't let it. And on June 17 President Eisenhower told the AEC—not TVA—to negotiate a contract with a private utility group to build a 107-million-dollar steam plant at West Memphis, Ark., to supply TVA with about 600,000 kilowatts of power.

This power would not be for AEC—AEC would only be acting as a government broker in the deal—but for TVA. The administration, dedicated to more free enterprise, has spoken in favor of more private development of power. The private utility group in this case—Middle South Utilities, Inc., and the Southern Company—is known as the Dixon-Yates group after E. H. Dixon, president of the former, and E. A. Yates, chairman of the latter.

Democrats accused the administration of trying to block further TVA development and of using the AEC as an instrument for doing it. They argued it would cost the government, over 20 years, 90 million dollars more for the private power than if TVA had built its own plant.

And the Eisenhower administration "contemplated" paying all the federal, state and local taxes for the Dixon-Yates group on any profits from supplying power to the TVA. This was mentioned by Rowland Hughes, director of the budget, who told AEC the President wanted the negotiation carried out.

The Democrats weren't able to block the administration from going ahead with this deal but they did get enough votes — on an amendment proposed by Sen. Gore (D-Tenn.) — to keep the federal government from paying the private utility group's federal taxes, if the deal goes through.

But the House passed a similar bill without this provision. Now the House and Senate must compromise their differences on the slightly different bills. So the federal law may not contain the Gore amendment. Both houses will have to approve the compromise, what?

## Looking Backward...

### TWENTY-FIVE YEARS AGO

Forty-two women of Pettis and Johnson Counties returned from an outing of four days at a camp near Stover. The camp council had a well arranged program of daily recreation, inspiration and enlightenment. Mr. Lester McClure, Houstonia, was council president for 1929.

—1929—

Saturday the Krigel Jewelry and Trunk Company had a formal opening at Main and Ohio.

The Rev. and Mrs. H. U. Campbell and daughter, who had been at Fayetteville, Ark., attending a regional conference of missionary workers of the Methodist Church, returned home.

—1929—

R. E. Kruger, representing the Missouri Pacific Magazine, was here from St. Louis completing arrangements for the Missouri Pacific display at the Missouri State Fair.

—1914—

The Hoffman hardware store, 305 South Ohio, was burglarized and the loot consisted of two revolvers, some flashlights, several articles of cutlery and other goods.

—1914—

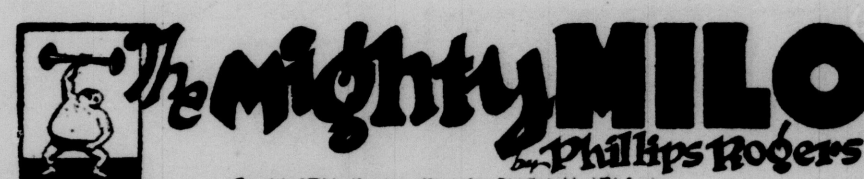

Sebastian Urban, interested in copper mines at Sullivan, Mo., returned from a visit of a few days there.

—1914—

S. A. Patterson, U. S. deputy revenue collector, returned from a brief business visit in Jefferson City.

—1914—

W. F. Brooks, son of Mr. and Mrs. J. L. Brooks, was in Kansas City visiting his aunt, Mrs. E. E. Gibson, for a few weeks.

XXIII

THE next night, when I saw Betty Jane Blane, she said, cold as a pickle. "It seems very funny to me that for two Fridays in a row you have not come around. Is it possible that you are dating some other girl on Friday nights, because if it is, you can date her the other nights too."

I told her that I would never be interested in dating another girl, as she was my first and only love. I felt real good about denying something to Betty Jane where I was telling the truth.

The next Friday I also did not see Betty Jane, although I had every night between, which wouldn't keep her from being unreasonable. I was not on the card, but I drove Milo down for the Mud Battle of the Century. Benny greeted me like he hadn't seen me in a week, which he hadn't. He said, "Honeyboy, am I glad to see you! A lug on the prelim just wired from Washington that he can't show and I need you to substitute. Get down and change. You come on before the lady wrestlers on the semifinals."

I objected that I hadn't brought my robe or my tights or anything, but he said, "We got some around, and also a mask, as you are billed as the Masked Marvel. You are matched with Jerry Mahoney, who will give away 15 pounds of weight, so you needn't worry."

Not only was Mahoney very fast and hard to hold on to, but the way my mask kept twisting, I couldn't see most of the time. He caught me in three or four head locks, which also didn't help, and when he got me on the mat he used a further nelson, which is a hold I couldn't feel him put on until it was on. I gave Mahoney a body slam which only brought Bronx cheers from the customers. This didn't help Mahoney's temper, either, and he

brought me to the mat with a grapevine and put on a toe hold, and finally I had to concede. Anyway, I had held my own for 19 minutes and 10 seconds, while practically blindfolded, which I felt was pretty good, but the crowd kept booing and jeering until I got out of sight. Mahoney, who turned out to be a decent enough fellow, told me that he had been the Masked Marvel a couple of times and always had trouble with the mask twisting. He proved to be a college graduate and quite a philosopher. He said he was going to make a study of why a wrestler in a mask always gets booed, along with fellows who wear mustaches or whiskers.

... ..

I DRESSED as quickly as I could, as I wanted to watch the lady wrestlers. Mahoney said he wasn't interested as he knew no lady wrestlers who were either ladies or wrestlers, which I thought was a pretty sharp remark. There was an empty chair practically under the ring apron and I slipped in there. The girls were about the same height and weight, but one had a nasty sneer that I didn't like. She had blonde hair that was cut short and frizzed. Her name was Ruby Jewell. The one I liked was called Tucky Tucker. She had long, curly black hair and black eyes. I began to root for her right away. Half the time, all they did was pull each other's hair, which the men in the crowd enjoyed. I enjoyed it myself.

Then this Ruby caught Tucky by her hair and pulled her into a head lock that wasn't put on right, but brought her to the mat. Tucky was just getting out of it, with neither shoulder touching, when the referee gave Ruby the tap. I do not mind telling you that I gave the referee a piece of my mind right from where I was sitting, and I wasn't the only

one. Why, that little blonde tramp had wrestled dirty right along. I told her off, too, before I went down to the dressing room to see Milo.

He was very depressed, as he had learned that Dawn O'Day's show had moved on to Charleston, W. Va., and she had left without saying goodbye or anything. I tried to cheer him up while the door prizes were being given, but he just sat there, not even looking at the three fellows who were going to wrestle with him in the Mud Battle of the Century. Two of them were a brother team that made a specialty of that kind of wrestling, although it is beyond me why anybody should want to. They claimed to be famous in the West and not used to working in a neighborhood joint like Benny's.

The third fellow was billed as the Ozark Mountain Hillbilly. He was a hillbilly, I guess, but didn't even know where the Ozark Mountains were and asked me if I knew. It was hard to imagine a fellow so ignorant, but I told him I would tell him after the show. Then so many things happened that I forgot to find out.

... ..

MIL0 was getting so depressed

I was afraid he might be defeated, so I told him about the two lady wrestlers and suggested that we should try to take them to a night spot afterward—not meaning to two-time Betty Jane Blane, but strictly out of friendship for Milo. He only shook his head and said that after what Dawn had done he was off women for life and advised me to do the same.

Just then Benny Lefkoe himself came into the dressing room. He took one look at Milo and said, "What's the matter with him?"

I said that Milo was just depressed because Dawn had left. "I have a letter from her," he said, "which is why I came down." He hands Milo this blue envelope and you never saw such a change in a fellow. "Fed, open. Milo no can read, account tears in eyes."

(To Be Continued)

## Democrat Pick-Ups

### Odds and Ends By News Staff

ONE OF THE attractions planned for the Cerebral Palsy Show to be held in Sedalia on Aug. 7 was a fire eating act, but the fire eater found out it was to be a show under the stars and said, "No."

It wasn't that the fire eater didn't want to appear on the show. In fact, he might be in it in another act, but not with his fire eating act. It seems like after all the soaring temperatures above the hundred mark the past few weeks that the fire eater would be right at home eating fire out in the open, but he just can't take any chances of blowing the flames into his eyes or hair, or maybe his clothing. As far as eating flames, that is all right, but when it comes to any other part of his body he will blister or burn just like anybody else. He only seems to be made of asbestos on the inside, not on the outside.

—H. L.

A couple of future cowboys were delighted when their dad bought a place with several acres that not only had a house but a barn with some stables. Now they could have horses and their father promised them that in a short time he would buy each a horse. The two little boys wasted no time, they found some yellow paint and painted up a couple of stables for their horses. Then they printed their names across a board in the back of the stables to there would be no confusion as to which stable belonged to which boy's horse, when they got the horses.

Dad hasn't had time to get the horses yet but on Sunday he borrowed some horses from a neighbor and thought he would teach the boys how to ride. After he had explained the fine art of riding a horse and had rode slowly around with them for a while, the boys began to think this wasn't the kind of riding they did in the cowboy movies. What they wanted was action. They wanted to race and so their dad raced with them. Some how it wasn't as easy as it looked in the picture show, this action business, and the nine year old was sure ready to call the whole thing off from the start. The first thing, he lost his hat and then he yelled, "Let me off!" But the horse kept racing, the little boy kept bouncing, and with every bounce he hollered, "Ouch."

He may still want a horse but he probably is thinking seriously of taking up something else when he grows up other than becoming a cowboy. Maybe a fellow

Arkansas Has Close Race, Undecided

LITTLE ROCK, Ark. (P)—One hundred and 35 rural Arkansas voting precincts today held Sen. John McClellan's political fate—and the dimming chances of his worst political enemy for a comeback.

McClellan, who drew nationwide attention as the Democratic leader in the McCarthy-Army hearings, early today had only a 2,726-vote lead over the combined opposition of three opponents with 2,166 of the state's 2,301 precincts reported.

If McClellan loses that margin in the missing 135 boxes, former Gov. Sid McMath, whom McClellan helped to whip for a third term two years ago, will go into a runoff primary against the senior senator Aug. 10.

The count—unofficial at this stage—was so close that the possibility arose that actual outcome might have to wait on an official tabulation.

Democratic nomination virtually means election in Arkansas.

In the 4th Congressional District, Rep. Oren Harris of El Dorado, a 14-year House veteran, held a majority over his three opponents. With a total of 64,866 votes reported from 473 of the district's 500 boxes, Harris' total was 34,958. Prosecuting Atty. G. W. Lookadoo of Arkadelphia had 17,182 votes; Norman Warnock, Camden Lawyer, 10,048; and Tax Assessor Robert Hollinger of Smackover, 2,678.

McClellan and Harris were the only members of Arkansas' all-Democratic congressional delegation to draw opposition.

Gov. Francis Cherry, who defeated McMath two years ago with McClellan's open support, apparently had run into a second contest in his bid for another term.

His prospective opponent in the runoff primary is Orval Faubus, Huntsville weekly newspaper publisher and former postmaster.

The 304,508 votes tabulated from 2,140 precincts in the governor's race gave Cherry, 144,827; Faubus, 103,157; State Sen. Guy Jones, 39,258; and Gus McMillan, 17,266.

In the Senate race—McClellan's first in 12 years—McMath lashed into the incumbent as a tool of "the power interests" and "the Texas oil millionaires."

The conservative McClellan denied or ignored the McMath charges, said he was willing to stand on his public record and said McMath had been "repudiated by 100,000 votes"—the approximate margin of McMath's defeat two years ago.

Uneasy Quiet Covers Prison In Washington

WALLA WALLA, Wash. (P)—An uneasy quiet settled over the State Penitentiary early today and the state patrol sent additional men here to reinforce guards watching for any outbreak of violence among some 1,500 hunger-striking prisoners.

The silence was broken by occasional warwhoops from "toughies" in the segregation wing, but Warden John Cranor said a near-midnight check showed most of the inmates, who were locked in their cells after they had passed up the evening meal, were retired for the night.

Guards concentrated their watch on the segregation wing, housing the prison's most hardened criminals.

"If there is any trouble, it will be here," said Lawrence Delmore Jr., former Alcatraz prison official who will replace Cranor when Cranor retires Sept. 1.

The hunger and sitdown strike described by Cranor as a "passive resistance" move caused chiefly by idleness, started in the prison laundry Monday. By noon yesterday it had spread to virtually all the men within the prison walls. Cranor said the minimum security prison outside the walls and the women's section were not affected.

"Only 62 per cent of the inmates are employed and those idle are doing a lot of beefing," Cranor said.

Tells Doctors How To Arrive at a Fee

DEDHAM, Mass. (P)—The Norfolk County Medical Society advises its physician-members in its current medical news publication how to arrive at a fair fee for all patients.

It emphasized, "The fee should have no bearing whatsoever on the physician's need or lack of money or the patient's willingness to overpay."

The article said: "If the very wealthy wish to throw their weight around, the physician should consider what he might lose in prestige by accepting an honorarium in excess of the established fee."

Will Move to Escape Potential Bomb Target

BOSTON (P)—A technical firm says it is planning to move 50 miles to Fitchburg to "get out of the potential bomb target area of Boston."

Robert G. Dexter of Barkley and Dexter Co. and the Barkley and Dexter Laboratories, Inc., machinery designers and electronics researchers, said yesterday the firm will move to Fitchburg in February.

# Sedalia Maytags Defeat Clinton 8-3 In State Semi-Pro

## Victory Is The Second For The Maytags As Sedalia Teams Move Into Winners Bracket

The Sedalia Maytags maintained their winning way in the 19th annual Missouri Semi-Pro tournament by defeating Clinton Merchants 8-3 Tuesday night. This victory sent the Clinton team into the losers bracket.

In the second game Tuesday night the United Brooms of Kansas City defeated Leeds Park of Kansas City 4-2. The loss eliminated Leeds Park.

The "Tags" overcame what appeared for the first five innings a 3-run lead held by Clinton as the winning tally. Clinton hammered the ball in the opening innings to take over the lead and held tight to the bottom of the fifth when it was tied up by the Sedalias.

In the fifth after two runs had been scored Bus Walker drove in the winning run. Then in the seventh it was Walker who hit a sharp single to drive in the leading run of the game. Three other runs were scored in the inning to give the Sedalias a 7-3 lead and another tallied in the eighth for the eighth run.

Wairhaye, centerfield, for Clinton played a spectacular game and made three sensational catches, one of which was in the eighth when George Thompson hit a sharp fly. Wairhaye made a right field catch and a center field catch for the out. He repeated one the next batter, Wolf, when he made another catch of a hard hit ball for a putout.

Connolly on the mound for the Maytags held Clinton to five hits, allowed two bases on balls and struckout six. Gumm for Clinton gave up 12 hits, walked four and struckout four.

Ralph Fall led the Sedalia hitting with a double and two singles, for four times at bat while teammate "Salty" Schumaker, got two for four, one a three base hit to deep left field. Bus Walker had three for five. Herman led Clinton with 3 for 4 one a double.

**United Brooms 4, Leeds Park 2**  
United Brooms defeated a one-run lead of the Leeds Park in the third inning and came through with a 4-2 victory in the second game played Tuesday night. Both teams are from Kansas City.

Leeds took the lead in the bottom of the first stanza with one run, but in the top of the third the United Broom Co. came back to run three across home plate for a 3-1 lead and added another in the sixth.

Wiley of United Broom and Meyer of Leeds Park both hit triples for their teams, Wiley getting two hits for four trips to the plate while Meyers had one for four.

C. Jones, on the mound for Leeds, struck out 11, walked one and allowed six hits while Henry for United Broom fanned seven, walked six and gave up three hits.

However, tight playing on the part of the Brooms at crucial points was the difference between the clubs.

# Yesterday's Games— Vic Wertz Is Big Gun For Indians

By JOE REICHLER  
AP Sports Writer

Hank Greenberg, whose player deals during the past few years have backfired more often than a 1929 jalopy, finally appears to have found a live one in Vic Wertz. Each day, the slugging outfielder-first baseman looms larger and larger in the Cleveland Indians' pennant plans.

Last night, for instance, he slammed a home run and double and drove in three runs as the Indians whipped Boston 6-3 for their 14th victory over the Red Sox in 15 decisions.

The Tribe now leads the New York Yankees by 2½ games. The Yankees were shut out by Chicago's Virgil Trucks 4-0.

In the National League, the St. Louis Cardinals thrashed the New York Giants 7-4 after Brooklyn's outslugging Dodgers had won a 4-3 slugger bee from the Chicago Cubs. The Giants' onetime seven-game bulge over Brooklyn has dwindled to a mere two in six days.

In other games, the Philadelphia Phillies whipped the Cincinnati Reds 8-2, Baltimore defeated Washington 7-5 and Philadelphia's Athletics beat Detroit 8-3 after the Tigers had won the opener of the two-night twin bill 3-2. Milwaukee and Pittsburgh were not scheduled.

It was a lucky break for the Indians when they acquired Wertz from Baltimore for pitcher Bob Chalkales at the start of last month. The bald-headed outfielder, hitting an anemic .202 for the Orioles, didn't figure to be of much help. But since joining the Tribe, the 29-year-old Detroit has been hitting at a .306 clip.

With Al Rosen adding a homer for Cleveland, Bob Lemon had an easy time registering his 12th triumph although he yielded 10 hits. Ted Williams failed to hit safely, ending his 14-game hitting streak.

Trucks, the strong-armed Chicago right-hander, handuffed the Yankees with five hits. It was his fourth shutout and 14th victory of the season. Harry Byrd was tagged for eight hits, two each by Phil Cavarretta and Jim Rivera.

The Dodgers, powered by home runs by Duke Snider and Jackie Robinson, gave Don Newcombe an early 6-0 lead but the big right-hander lost most of it and it took a neat relief job by Billy Loes to pull the Dodgers through.

Wally Moon and Stan Musial led a late St. Louis drive to bring the Cardinals up from a 2-0 deficit to an easy victory over the Giants. Moony smashed four hits. Musial cracked his 28th homer with two mates aboard.

Robin Roberts became the first 15-game winner in the majors as the Phils submerged the Reds. Del Egnis, Bobby Morgan and Danny Schell homered to give the ace right-hander an early 8-0 lead.

**Bag, Possession Limits on Doves Set for Season**  
WASHINGTON (AP)—Bag and possession limits and dates for 1954-55 hunting seasons on doves, rails and gallinules have been announced by Secretary of the Interior McKay.

The regulation prohibits the use of salt to lure doves within gunshot range. Use of block salt was permitted last season.

Shooting hours on rails and gallinules generally will be one-half hour before sunrise to sunset. On mourning or turtle doves, shooting hours in Kansas, Missouri, Colorado, Illinois and Oklahoma will be from one-half hour before sunrise to sunset. In Arkansas, shooting of doves will be permitted from noon until sunset.

Daily bag and possession limits and open seasons include: Rails and gallinules: Mississippi Flyway states—Bag limits, 25 sora, 15 all others, singly or in aggregate; possession limits, 25 sora, 15 all others. Mourning or turtle doves: Daily bag and possession limits, 10 in Kansas, eight in Missouri and Arkansas.

Arkansas Sept. 15-Oct. 24; Colorado, Kansas, Oklahoma, Sept. 1-Oct. 10; Missouri Sept. 1-Oct. 5.

**Scores a Hole In One On His First Game**  
PITTSBURGH (AP)—The closest Bill Linder ever came to a game of golf was a couple of visits to a local driving range.

Yesterday he agreed to accompany some friends to a nearby course to see what it would be like to play an actual round. On the 140-yard third hole, he selected a No. 8 iron and took his cut for a hole in one.

(Only games scheduled)

**Several Missourians Qualify for Amateur**  
KANSAS CITY (AP)—Jim Vickers of Wichita, Kan., led 28 players who competed here yesterday for four qualifying places in the national amateur golf tournament.

Vickers toured the Kansas City Country Club course in a pair of par 70s for a 36-hole score of 140. The other three qualifiers are: Bill Bogges, Kansas City, 73-71-144  
Bill Webb, Kansas City, 69-73-144  
Raymond Watson, Kansas City, 74-73-147

Bill Stewart of Springfield, Mo., defeated George Sinderson of Kansas City in a five-hole playoff to win designation as first alternate. They tied at 148 in regulation play and it was not until the fifth hole of the playoff that Stewart came out on top.

**K. C. Open Players In a Final Tune-up**  
KANSAS CITY (AP)—Contenders in the \$20,000 Kansas City Open Golf Tournament opening tomorrow will have a final tuneup on the parched Blue Hills Country Club course in a pre-junior round today.

Twenty-two professionals, among them such stars as Cary Middlecoff, Tommy Bolt, Fred Haas Jr., Ed (Porky) Oliver, Johnny Palmer, Lloyd Mangrum, Earl Stewart Jr., and Felice Torza, team with youngsters in today's activities.

Many of the country's top golfers will compete in the open which ends Sunday. Absent, however, will be Sam Snead, Ben Hogan and Chick Harbert, who only yesterday won the PGA championship at St. Paul.

Oliver won the event last year.

# Sports Roundup— Sad Plight of Minor Leagues Causes Concern In the Majors

By JACK HAND  
(For Garle Tailor)

NEW YORK (AP)—The sad plight of the minor leagues is causing deep concern in the upper strata of the baseball world, where it is recognized that the game cannot survive without its lower branches.

Since the start of the season, three of the 36 minor leagues have folded and the number of clubs playing minor league ball has shrunk from 288 to 249. The Florida International in Class B, the Mountain States in Class C and the Tar Heel in Class D are no more.

## Little League— Extra Base Hits Mark Tuesday Tilts

Every team had its doubles hitter and McMacinn slapped a homer in the American division games of the Sedalia Little League Tuesday night. Optimists hoped to a 16 to 4 win from Adco while the Lions took a 6-2 victory over the Democrat Capital.

The Optimists scored four runs in the bottom of the first to take a lead, but Adco tied it at 4-4 in the top of the second. It was then the Optimists broke loose. Before Adco could get the side out in the last of the second, the Optimists had rolled in nine runs on two hits, including McMacinn's 4-bagger, three errors and six walks.

Doubles were hit by Dow and Spieler for Adco, Case for the Optimists.

After Democrat-Capital Newsboys opened their game with two scores in the top of the first they were held scoreless by the Lions, who scored twice in each of the second, third and fifth innings to take the win. Hannigan, Arnett and Edwards all had doubles for the Lions and Elliott and Watson collected two baggers for the Newsboys.

**Pvt. Mickens Plays On Ft. Ord Football Team, Will Meet Rams**  
Pfc. Harold Mickens, San Francisco, Calif., son of Mr. and Mrs. J. W. Mickens, 216 East Sixth, is playing right halfback and fullback with the football team at Ft. Ord, Calif.

The team will go to Long Beach this weekend for a game July 31 with the Los Angeles Rams. While there they will be taken on a tour of Warner Brothers studios of the movie industry's United Artists.

Pfc. Mickens has been in the Army a year. He is now assigned to training recruits at Ft. Ord.

**T&C Girls Play Team From Columbia Tonite**  
The Town & Country girls' softball team will play Columbia tonight at Center Park. Game time is 8 p.m.

**Asks Communist Ban**  
BOGOTA, Colombia (AP)—President Gustavo Rojas Pinilla asked the nation's Constituent Assembly last night to bar international communism from Colombia.

The President told the Assembly that democracy endangers itself by permitting groups directed by foreign powers to prosper.

# Pirates Lose Huge Sums, Writer Reports

PITTSBURGH (AP)—Al Abrams, sports editor of the Pittsburgh Post-Gazette, said today the Pittsburgh Pirates have lost approximately \$1,850,000 since Branch Rickey became general manager four years ago.

In the first of a series of copyrighted articles entitled "A Factual Report on the State of the Pirates," Abrams said the club is "staggering under a financial load which could lead to eventual disaster and sale of the club."

"We're not going to die on the vine," he said. "The situation is not that desperate. But obviously it is a cause of concern when you drop from 59 leagues in 1949 to 34, halfway through 1954."

"I'm not saying that radio and television of major league ball games into our cities is the cause of all our difficulties. Perhaps it is only one of several contributing factors. Before we get together for our December meetings in Houston, I hope we can arrange to channel some funds down to us from up on high."

Baseball still is scared of Washington, uncertain how far it can move without being hauled up on charges of monopoly. If it were possible to take some of the money that is paid for radio and television rights and spread it among the minors, without legal complications, I am sure Commissioner Ford Frick would advocate such a move. Something like that may be the ultimate solution.

**Garrison Tops National Loop L. L. Hitters**  
Garrison of the Elks is the leading batter, among the regulars for the full season, in the National division of the Sedalia Little League as the year gets close to a finish. He's the home run leader of the division, too, but he trails Wertz, the Optimist pitcher, who is the leading hitter, slugger and hurler of both leagues.

Wertz is batting at a .511 clip with seven home runs and a 6-1 record on the mound.

Garrison is batting .472 with Shepherd of the Jaycees next in the National at .429 and Ray of Kiwanis third with .423. Dotson of Kiwanis has the most hits and rates fourth in the National division hitting with .409. He has 18 safeties. Nichols of Rotary leads in runs scored with 19.

The National division batting percentages are listed below and it will be noted that some players' averages are higher than the leaders above, but they have appeared in fewer games — as Weising of the Jaycees, who has been at the plate only nine times and is rattling the wood at a .556 clip.

NATIONAL LEAGUE	Player	AB	R	H	PO	Avg.

## Ike Raises Tariff Price For Watches

WASHINGTON (AP)—President Eisenhower has raised the tariff on many watches manufactured abroad but a spokesman for U.S. watchmakers says most Americans will still buy Swiss imports.

The President's decision nonetheless was received with pleasure by the domestic industry and criticized from other quarters.

Swiss Minister Charles Bruggmann said it dealt a "serious blow" to his country's relations with the United States. He said the step hadn't been anticipated from a friendly government.

Eisenhower announced the first major tariff boost of his administration late yesterday. Effective today except on shipments already in transit and cleared through customs by Aug. 26, it hikes the duty as much as 50 per cent on watches with no jewels or no more than 17 jewels.

The effect will be to raise imported watch prices \$3.50 to \$5. The Federal Tariff Commission had recommended the increase. It said heavy imports were hurting the American industry.

The White House said raising tariffs also would keep the industry in shape to produce watch movements and other precision devices "necessary for national defense."

Paul F. Mickey, vice president of the American Watch Manufacturers Assn., said the tariff increase gives American producers "a chance to survive" in the face of a flood of Swiss watches that has "literally strangled our industry."

He said the boost still wouldn't equalize costs and predicted Swiss imports "will continue to supply the majority of the American market."

On the other hand, CIO President Walter Reuther labeled the move "tragic" and said it would antagonize "countries whose friendship we seek."

**POOL COOL**—Polar bears at the Rome, Italy, zoo enjoy a romp in the pool under sweltering summer sun. Among zoo's chief attractions they're the envy of perspiring visitors.

## California Governor Will Remarry Monday

SACRAMENTO, Calif. (AP)—California's Gov. Goodwin J. Knight will be married Monday to Mrs. Virginia Carlson in Beverly Hills. Knight, a candidate for election in November, announced yesterday the ceremony will be performed at the Episcopal Church of our Saviour, and only about 30 relatives will attend.

Mrs. Carlson, 35, of Los Angeles, was widowed when her husband, an Air Force bombardier, was killed over Europe in 1944. The governor, 57, has been a widower since 1952. He has two grown daughters. His bride-elect is childless.

## Ike Sees No Escape From Debt Limit Hike

WASHINGTON (AP)—President Eisenhower said today he sees no way to escape raising the federal debt limit.

The President told a news conference that raising the debt limit above the present 275 billion dollars is not a part of his legislative program—but that it is a necessity. Eisenhower called for an increase in the debt limit at last year's session of Congress but the Senate balked.

## Five Farmers Are Hurt In Fight With Negroes In North St. Louis

ST. LOUIS (AP)—Five Missouri farmers were injured seriously last night in a fight with a band of Negroes on Produce Row in North St. Louis.

Police said witnesses told of between 10 and 20 Negroes, many of them youths armed with knives and hammers, rushing at a farmer who reported an earlier disagreement with a customer who refused to make a purchase after testing two watermelons.

The other farmers injured had come to the rescue of the attacked man.

The Negroes fled the scene after the attack, witnesses said. The injured were identified at City Hospital as Robert Lesslie, 40, Kennett; Chester Wells, 41, Fisk; his son, William, 19, Broseley; Robert Ranburger, 49, Fisk; and Truman Wilburn, 39, White Oak.

The Helene hummingbird of Cuba, 2 1/2 inches long, is rated as the smallest bird in the world.

## Will Request Greater Authority to Take Drivers Off the Road

ST. LOUIS (AP)—M. E. Morris, Missouri director of revenue, said yesterday the Missouri Legislature will be asked next January to give state officials greater authority to take drivers off the road when public interest requires such action.

Morris said the request for more authority to revoke or suspend licenses will be part of a traffic safety program to be presented to the legislature.

Other points, he said, will be a state speed law and a safety check for motor vehicles.

The present Missouri driver's license law requires three convictions of careless or reckless driving during a two-year period before a license can be revoked. Morris said the case of St. Louis' Robert H. (Hot Rod) Moore, convicted 23 times on traffic violations since 1948, shows the need for greater authority. Moore has appealed many of his convictions and under the present law his license can't be revoked until another conviction is upheld.

## BENEFIT DANCE ROUND AND SQUARE

Convention Hall Liberty Park  
SATURDAY, JULY 31 --- 8:30 P.M.

Proceeds of this dance will go to Warren Lind, who has been confined to his home for several months and probably will be for some time.

Music donated by Easter, Horner, Templeton, Lee, Grimes, Klien, Mosby, Bratten and Chipman.

Warren has made a lot of us happier with his accordion music, so come on out to Convention Hall Saturday night. You'll have a good time and make Warren mighty happy.

EVERYONE IS WELCOME

## Roy Cohn Testimonial Dinner Scheduled

NEW YORK (AP)—A testimonial dinner will be given tonight for Roy M. Cohn, and the sponsors say there is room for only a fraction of those who want to attend.

Cohn, a key figure in the recent Army-McCarthy hearings, resigned as chief counsel for the Senate investigations subcommittee after the hearings ended. Sen. Joseph R. McCarthy (R-Wis.), chairman of the subcommittee, will be speaker.

Tonight's dinner had been planned before Cohn's resignation. The Joint Committee Against Communism in New York, which organized the Cohn testimonial, said it had to turn down 5,500 applications for tickets.

About 2,000 are expected to attend the dinner in the Hotel Astor at \$7 a plate.

## Kids Think Lawn Man Is True Gold Digger

SPOKANE, Wash. (AP)—Glenn Aiken, working a bulldozer in a residential district yesterday, attracted the usual number of youngsters who pestered, "what're ya doin', mister?"

"Digging for gold," Aiken advised.

The kids told their mothers who told other mothers. The story soon told the neighborhood and moved downtown. The Better Business Bureau, stockbrokers and city officials started getting calls.

The report was that gold had been found, that stock was for sale. Property owners were to get a fifth interest.

City Hall quickly dispatched an emissary to the scene.

"Gold?" gasped Aiken. "That was a joke for the kids. I'm helping put in a lawn."

## State Police Capture Three Escaped Boys

ST. LOUIS (AP)—Three boys who escaped Monday from the Boonville, Mo., boys' training school were captured in a stolen pickup truck last night in St. Louis County after a high-speed chase by state police.

State police identified the three as James Ashlock, 13, and Jerry Fitzwater, 14, both of St. Louis, and Roy Sherman, 13, of Bowling Green, Mo.

Boonville authorities reported the three had stolen the truck north

of there last night. Police saw the truck on U. S. Highway 40 east of Weldon Springs in nearby St. Charles County.

The boys are being held in suburban Kirkwood City jail until the arrival of Boonville authorities. They escaped Monday afternoon and were reported by police to have stolen a boat. Police said the boys last night said they left the boat tied up near Boonville.

In the Middle Ages, the use of certain furs for garments was almost a badge of office—for instance, the use of ermine by the judges.

## OUR BOARDING HOUSE with Major Hoople

## Returns Four Indictments In Shooting

ST. LOUIS, Mo. — The Circuit Court grand jury returned four indictments yesterday in connection with a cocktail lounge shooting and police were asked to protect four witnesses in the case.

Three indictments named Paul Baykoski, 21, charging him with assault with intent to kill and flourishing a deadly weapon. Jack B. Ballard, 24, was charged with intimidation of a state witness.

Baykoski was shot five times in a gun duel with Police Sgt. Lee Soete at the Londoff Cocktail Lounge June 13. Two bystanders also were wounded.

Since then Mrs. Helen Wiechelt of East St. Louis, one of the witnesses, was knifed by three men who forced their way into her home June 25. Three days later, Jack T. Allen, 22, shot himself to

## Face Stiff Sentences For Lending Licenses

ST. LOUIS, Mo. — Four St. Louisans face possible workhouse sentences and up to \$1,000 in fines for lending their fishing licenses to other persons.

Jasper R. Vettori, assistant prosecuting attorney for St. Louis who will prosecute the cases in the court of criminal correction, said yesterday he was surprised that the action was a crime.

The complaints were filed by Missouri conservation agents under Section 43 of the Wildlife Code. The cases are to come before Judge Louis Comerford Friday.

Other witnesses, who Assistant Ckt. Atty. Raymond Bruntrager said have received threats, are Stephen George, Henry Londoff, father of the owner of the lounge, and Miss Mary Brostoski.

## Fourth of Series on Traffic Report--

## Suggests New Type Street Lights, Eliminate Hazardous Conditions

This is the fourth in a series of five articles giving the contents of a preliminary traffic report by Traffic Associates, St. Louis, to the City Council last week.

In preceding articles, beginning last Sunday, The Democrat has given the general aims of traffic improvement in Sedalia and the specific recommendations for accomplishing that improvement, as presented in the preliminary report.

Today's article continues those specific recommendations.

The City of Sedalia should institute a program of street resurfacing, according to traffic engineers employed by the City Council to survey traffic conditions here and to recommend remedies.

This comes at a time when the city has just taken the first step to accomplish just that.

A month ago, the council approved resolutions for resurfacing 11 streets. Remonstrances were received on seven of these and the ordinances for repaving the remaining four were read for the first time at the last council meeting.

In addition, new resolutions for repaving shorter stretches of the other seven were approved. Joseph J. Feuchter, traffic engineer and president of Traffic Associates, recommended the street resurfacing program for two reasons, he said.

It will contribute to safety and travel ease and will also defer reconstruction indefinitely. He added that many streets because of their roughness, may have inadequate braking surface.

He also said that the city should eliminate certain hazardous conditions, by maintenance, reconstruction, illumination and adequate reflectorized warning signs.

He mentioned in particular the bridges on North Grand Avenue and on Limit between Broadway and Third, the drainage ditch on the east side of Park, south of Broadway, the drainage ditch on 12th Street, between Montgomery and Engineer, and the bad dips at Prospect and Cooper, Prospect and North Grand, Wilkerson and Quincy, Prospect and Second, Lamine and Fourth and Engineer and Fourth. There are other hazardous places, he said, but he considered these the most important.

Other recommendations about streets were the elimination or modification of all "tee" and "jog" intersections, so that all intersections are true crosses or nearly so; an endeavor to have the State Highway Department give further consideration to the development of by-pass routes for Highways 50 and 65; and the establishment of minimum street requirement regulations for new subdivision development.

About subdivision projects, Feuchter said that all too often proper width of streets is sacrificed for the sake of larger plots.

"Either that," he said, "or they have fancy curves that come from nowhere and lead to nowhere."

Standard regulations would benefit both the city and the subdivision owners, Feuchter pointed out.

His report advised the painting of center lines, crosswalk lines and stop lines at all stop signs. Crosswalk lines should be painted at all intersections in the area bounded by and including Main, Washington, Second, Massachusetts, Fifth, Kentucky, Second and Grand, and also at Ohio and Broadway, Massachusetts and Broadway and Grand and Broadway.

Center lines should be painted on: Main from city limits to Washington; Kentucky, Lamine and Massachusetts from Main to Broadway; Grand from Cooper to Clinton Rd.; Osage from Broadway to Highway 65; Ohio from Pacific to 16th; Engineer from Boonville Rd. to 16th; 16th from Engineer to Barrett; Third from Park to Engineer; Second from Missouri to Washington; Fourth from Grand to Lafayette; Fifth from Missouri to Engineer; Hancock from Third to Broadway and 13th from Massachusetts to Monticau.

The report also recommends that the State Highway Department be asked to paint center lines on Highways 65 and 50 within the city limits.

While he was discussing the state highways, Feuchter also urged that the city coordinate with the state highway, county and the special road district officials in establishing proper speed limits on highways and streets in outlying sections of Sedalia. This, he said, should be done after proper surveys and speed checks are made.

As the speed limits now stand, Feuchter explained, drivers on the highways and streets in rural areas outside the city suddenly come upon a 25 mile-per-hour limit when they enter the city limits. It doesn't work out. He suggested that the speed limits be reduced gradually.

The present street lights were criticized as being more useful for an airfield, where lights must be directed upward, than for a street where it should be thrown downward to the roadway. The report recommends that modern, overhead lights be provided on Ohio from Main to Broadway and on other principal traffic arteries not so equipped.

At the same time, Feuchter said, the city council should conduct tests to determine the most suitable and economical parking meter to replace present meters, which are approximately seven years old and soon need to be replaced because of excessive maintenance.

He also suggested that a study be made to determine the possibility of reducing parking time limits at meters adjacent to the post office, banks and similar establishments.

Switching over to the role of the police department in traffic control, the report states that the city's police department vehicles are inadequate in number. Most police department of cities of 25,000 population or less average approximately three police vehicles per 10,000 population. This ratio indicates that Sedalia should have six or seven vehicles in the police department.

"At least two additional police sedans with two-way radio, and one Tri-car for policing of parking restrictions and parking meters, should be provided," the report states.

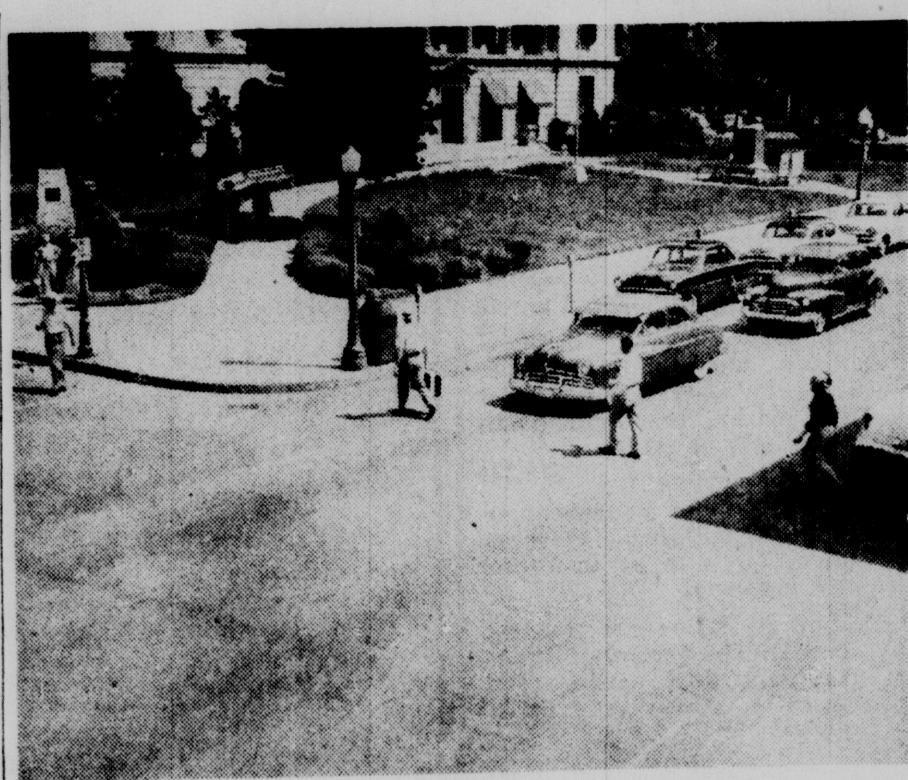

Since the report was made, the police department has been presented a new squad car by W. A. Smith Motors, bringing the total to three.

The report urges the beginning of the program for traffic training of qualified police officers by inservice training and by attendance of traffic courses at accepted institutions, such as the Northwestern University Traffic Institute. These courses range in length from two weeks to nine months.

Other recommendations involving the police department are the establishment of a traffic map and a traffic file. The map, to be set up in the office of the city traffic engineer and to be available to the police, would show all traffic regulatory measures, such as traffic control devices and all parking restrictions and prohibitions, speed limits, restricted or prohibited turning movements and related measures.

The file would be established and maintained in the police department and would be available to the city traffic engineer. It would contain an accident location file, traffic accident spot maps and a file of recommendations for traffic improvements.

Finally, the report recommends several studies: A detailed traffic survey on Broadway at the intersections with Limit, Missouri and Hancock to determine if present stop signs with flashing red and amber lights are proper traffic controls. A detailed traffic engineering investigation, including collision

**CROSSWALK LINES NEEDED**—The preliminary traffic report by Traffic Associates, St. Louis, recommends that pedestrian crosswalk lines be painted in the downtown area and neighboring streets, as well as on certain main intersections on Broadway. Such lines would prevent cars from nosing into the crosswalk area, as shown here, forcing pedestrians too close to moving traffic in the intersecting street. (Walch Photo)

ington; Kentucky, Lamine and Massachusetts from Main to Broadway; Grand from Cooper to Clinton Rd.; Osage from Broadway to Highway 65; Ohio from Pacific to 16th; Engineer from Boonville Rd. to 16th; 16th from Engineer to Barrett; Third from Park to Engineer; Second from Missouri to Washington; Fourth from Grand to Lafayette; Fifth from Missouri to Engineer; Hancock from Third to Broadway and 13th from Massachusetts to Monticau.

The report also recommends that the State Highway Department be asked to paint center lines on Highways 65 and 50 within the city limits.

While he was discussing the state highways, Feuchter also urged that the city coordinate with the state highway, county and the special road district officials in establishing proper speed limits on highways and streets in outlying sections of Sedalia. This, he said, should be done after proper surveys and speed checks are made.

## Vote For Atom Bill

WASHINGTON (AP)—The two Republican senators from Kansas, Schoeppel and Carlson, voted with the majority last night when the Senate passed the atomic energy bill 57 to 28. Missouri's two Democratic senators, Hennings and Symington, voted against the bill.

and condition diagrams, at certain intersections to determine remedial measures to be taken to reduce the traffic accidents occurring there. These intersections and the number of accidents which have occurred there in the past 18 months, are: Ohio and Main, 21; Kentucky and Main, 15; Ohio and Broadway, 14; Osage and Main, 13; Grand and Broadway, 12; Lamine and Second, 11; Lamine and Third, 11; Osage and Third, 9; Ohio and Second, 9; Ohio and Third, 8; Broadway and Osage, 8; and Missouri and Broadway, seven.

A study to determine the use of alleys and other off-street truck loading facilities and also to determine the need, locations and regulations for on-street loading zones.

A survey to determine the advisability of establishing a one-way alley system in the downtown or business section.

Feuchter paused to remind the council members that the real test of their desire to institute traffic improvements would be to provide for the establishment of traffic regulations, enactment of traffic regulatory ordinances or the installation of traffic control devices only after proper surveys or studies show necessity and comply with warrants listed in the manual on such devices.

He said the council members would find themselves besieged with many requests for stop signs at certain corners and for other measures to regulate traffic and that only if they resisted pressure and proceeded according to plan would Sedalia traffic be improved.

(Tomorrow: The final phase of the report, describing the long-range traffic plan needed by Sedalia.)

**Blue Springs Bonds Defeated In Election**

KANSAS CITY, (AP)—Bond issues totalling \$504,000 were defeated in a special election held yesterday at the Kansas City suburb of Blue Springs. The plan was to use the bonds to finance improvements to the water works and sewer system.
